3 On page 8, line 28, after "amounts of" strike all material  
4 through "assessed" and insert "50 percent of what would otherwise be  
5 assessed for a first automated traffic safety camera violation and  
6 for subsequent automated traffic safety camera violations issued

EFFECT: (1) Clarifies that the exception to revenue distribution requirements for existing traffic camera programs that expand program locations within certain limits does not apply to jurisdictions that qualify for a separate exception to revenue distribution requirements for existing programs with an ordinance in place that specifies the uses of program revenue.

(2) Modifies the penalty reduction for recipients of state public assistance from 25 percent of the penalty amount for all traffic camera-enforced violations to 50 percent of the penalty amount for first traffic camera-enforced violations and for traffic camera-enforced violations received within 21 days of a first violation.
