
Transportation Committee

HB 2108

Brief Description: Creating the state department of natural resources' Smokey Bear special license plates.

Sponsors: Representatives Donaghy, Orcutt, Timmons, Springer, Reeves and Chapman; by request of Department of Natural Resources.

Brief Summary of Bill

- Creates the Smokey Bear special license plate.
- Establishes original and renewal fees for the special license plate.
- Directs proceeds from the special license plate to the Department of Natural Resources to use for wildfire prevention programs.

Hearing Date: 1/17/24

Staff: Michael Hirsch (786-7195).

Background:

The Department of Licensing (DOL) issues special vehicle license plates that may be used in lieu of standard plates. An organization seeking to sponsor a special license plate must be a nonprofit organization, a professional sports franchise working in conjunction with a nonprofit organization, or a government agency. The sponsoring organization may choose one of two ways of creating a special license plate.

Application Process and Legislation. In this method, a sponsoring organization submits an application to the DOL prior to pursuing legislation. The application packet must include the design of the special license plate, proof of 3,500 signatures in support of the special license plate, and the start-up fee of \$6,300. After the DOL approves the application, the sponsoring

organization must pursue legislation to create the special license plate. *Legislation Without the Department of Licensing's Review.* In this method, a sponsoring organization pursues legislation without applying to the DOL first. Once the bill is enacted, the sponsoring organization must provide the design of the special license plate and the startup fee of \$6,300 to the DOL within 30 days. In both methods, if the sponsoring organization can prove that they are unable to provide the start-up fee up front, then revenues from the sale of the special license plate will be used to pay this fee. On an annual basis, the sponsoring organization must submit a financial report to the DOL detailing actual revenues from the sale of the special license plate. The DOL compiles these reports and presents them to the transportation committees of the Legislature.

The DOL collects special license plate fees and, for administrative expenses, deducts an amount not to exceed \$12 for new plate issuance and \$2 for renewal. After these expenses are paid, the State Treasurer (Treasurer) deposits the proceeds into the Motor Vehicle Account until the DOL determines that the start-up fee for a special license plate is paid. Once the start-up fee is paid, the Treasurer credits the remaining special license plate fee amounts into an account specified for the sponsoring organization.

Summary of Bill:

The Smokey Bear special license plate is created. In addition to all fees and taxes required to be paid upon application for a vehicle registration, a fee of \$40 is charged for the original issuance of a Smokey Bear special license plate, and a \$30 fee is charged for the renewal of the plate.

Revenue from the sale of the special license plates is deposited in the Wildfire Response, Forest Restoration, and Community Resilience Account for the Department of Natural Resources to use for wildfire prevention programs.

Appropriation: None.

Fiscal Note: Preliminary fiscal note available.

Effective Date: The bill takes effect on October 1, 2024.
