21 prioritize buildings that are older than 15 years and that serve very
22 low-income and extremely low-income populations.

23 (b) Projects preserving affordable multifamily housing at risk of

31 to preserve the affordable housing units beyond their existing use
32 restrictions and keep them in Washington's housing portfolio for a

18 provided solely as match to private investment for grants or loans to

22 appropriation may only be used for the construction of units
23 affordable at 80 percent of area median income or lower, if a project
24 includes a range of affordability levels. The department shall work

27 housing projects within rapid transit corridors. The department shall
28 implement the program pursuant to the following eligibility criteria
29 and definitions:

15 the list of housing trust fund applications from the prior two years
16 to determine if any projects not fully funded would meet the criteria
17 listed in subsection (2) of this section and would be able to proceed
18 to construction. If so, the department must conduct outreach to those
19 project owners to discuss the ((grant)) program before soliciting new
20 projects.

7 needs populations.

8 (9) Of the amounts appropriated in this section, \$2,100,000 from

3 project. The legislature intends to provide funds in the amount of
4 \$23,357,000 over the course of the 2023-2025 and 2025-2027 fiscal
5 biennia for the Lummi Nation Substance Abuse Treatment project.
6 Pursuant to RCW 43.88.130, the department may enter into a
7 multibiennium contract with Lummi Nation for the design and
8 construction of the project. Nothing in this section authorizes the
9 department to make an expenditure without an appropriation.

10 (7)(a) \$10,002,000 of the state building construction account—
11 state appropriation and \$4,998,000 of the capital community
12 assistance account—state appropriation in this section are provided

14 building located in Clark County, Washington. Title of the property
15 must be held in the name of the state under the custody and control
16 of the department of enterprise services.

17 (b) The department, with the assistance of the department of
18 enterprise services, shall facilitate a lease agreement with Madrona
19 Recovery Center, Inc. (Madrona) for a term of no less than 10 years,
20 at a lease cost of \$1 per year. As a condition of the lease, the
21 department shall obtain commitments and acknowledgments from Madrona
22 as follows:

23 (i) The building will be operated for the purpose of providing
24 substance use disorder treatment and other behavioral health
25 treatment services to children and minor youth throughout the term of
26 the lease;

27 (ii) Madrona is able to meet applicable licensing and
28 certification requirements necessary to operate the facility;

29 (iii) Madrona commits to prioritizing services for persons who
30 are publicly funded and are residents of the state of Washington;

31 (iv) Madrona has provided a detailed estimate of the costs
32 associated with opening the beds at the facility;

33 (v) The date upon which structural modifications or construction
34 would begin and the anticipated date of completion of the project,
35 with an anticipated opening date of the facility that is no more than
36 12 months from commencement of the lease; and

37 (vi) Madrona has submitted a financial plan demonstrating its
38 ability to maintain and operate the facility, including confirmation
39 that the health care authority, department of social and health

1 services, or a managed care organization plans to contract with the
2 facility sufficient to cover the facility's operating costs.

3 (c) \$1,000,000 of the state building construction account—state
4 appropriation in this section is provided solely to Madrona for the
5 purpose of tenant improvements necessary to operate the building for
6 the purposes outlined in (b) of this subsection. The department must
7 inform Madrona of its obligation to pay prevailing wage in completing
8 tenant improvements financed by the state. Subsequent maintenance and
9 repairs during the term of the lease are the responsibility of
10 Madrona.

14 ~~((7))~~ (8) The department shall notify all applicants that they
15 may be required to have a construction review performed by the
16 department of health.

17 ~~((8))~~ (9) To accommodate the emergent need for behavioral
18 health services, the department and the department of health, in
19 collaboration with the health care authority and the department of
20 social and health services, must establish a concurrent and expedited
21 process to assist grant applicants in meeting any applicable
22 regulatory requirements necessary to operate inpatient psychiatric
23 beds, freestanding evaluation and treatment facilities, enhanced
24 services facilities, triage facilities, crisis stabilization
25 facilities, or secure detoxification/secure withdrawal management and
26 stabilization facilities.

27 ~~((9))~~ (10) The department must strive to allocate all of the
28 amounts provided in this section in the manner prescribed in each
29 subsection. However, if upon review of applications, the department
30 determines, in consultation with the advisory group established in
31 subsection (1) of this section, that there are not adequate suitable
32 projects in a category, the department may allocate funding to other
33 project categories listed in this section, prioritizing projects that
34 support serving individuals who will be transitioned from or diverted
35 from the state hospitals. Underserved areas of the state may also be
36 considered.

37 ~~((10))~~ (11) In contracts for grants authorized under this
38 section, the department must include provisions that require that the
39 grantee or successor hold the capital improvements for at least a 10-
40 year period. The provisions must require the facility to be used for

1 behavioral health services, but may allow the facility to change
2 ownership or facility type during the commitment period. The
3 department shall monitor the activities of recipients of grants under
4 this program to determine compliance with the terms and conditions
5 set forth in its contract.

6 ~~((11))~~ (12) The department must provide a progress report to
7 the appropriate committees of the legislature by September 1, 2024.

18 the date the facility began providing services; and

19 (e) Recommendations for statutory language that would codify the
20 grant program on an ongoing basis including:

21 (i) Evaluation and prioritization criteria;

22 (ii) Monitoring and compliance requirements;

23 (iii) Preconstruction and technical assistance services; and

24 (iv) Data needed to determine the service needs by area of the
25 state.

26 ~~((12))~~ (13) The department must coordinate with the health care

6 2023-25 Early Learning Facilities Fund Grant Program (40000300)

7 The appropriation in this section is subject to the following
8 conditions and limitations:

9 (1) (~~(\$5,000,000)~~) \$7,350,000 of the Ruth Lecocq Kagi early
10 learning facilities development account—state appropriation in this
11 section is provided solely for minor renovation grants.

12 (2) (~~(\$42,050,000)~~) \$46,550,000 of the Ruth Lecocq Kagi early
13 learning facilities development account—state appropriation in this
14 section is provided solely for the early learning facility grant and
15 loan program, subject to the provisions of RCW 43.31.573 through
16 43.31.583 and 43.84.092, to provide state assistance for designing,
17 constructing, purchasing, expanding, or modernizing public or private
18 early learning education facilities for eligible organizations. Up to
19 four percent of the funding in this subsection may be used by the
20 department of children, youth, and families to provide technical
21 assistance to early learning providers interested in applying for the
22 early learning facility grant or loan program.

23 (3) The department of children, youth, and families must develop
24 methodology to identify, at the school district boundary level, the
25 geographic locations of where early childhood education and
26 assistance program slots are needed to meet the entitlement specified
27 in RCW 43.216.556. This methodology must be linked to the caseload
28 forecast produced by the caseload forecast council and must include
29 estimates of the number of slots needed at each school district. This
30 methodology must inform any early learning facilities needs
31 assessment conducted by the department and the department of
32 children, youth, and families. This methodology must be included as
33 part of the budget submittal documentation required by RCW 43.88.030.

34 (4) When prioritizing areas with the highest unmet need for early
35 childhood education and assistance program slots, the committee of
36 early learning experts convened by the department pursuant to RCW
37 43.31.581 must first consider those areas at risk of not meeting the
38 entitlement specified in RCW 43.216.556.

1 (5) The department must track the number of slots being renovated
2 separately from the number of slots being constructed and, within
3 these categories, must track the number of slots separately by
4 program for the working connections child care program and the early
5 childhood education and assistance program.

6 (6) When prioritizing applications for projects pursuant to RCW
7 43.31.581, the department must award priority points to applications
8 from a rural county or from extreme child care deserts as defined by
9 the department of children, youth, and families.

10 (7) For early learning facilities collocated with affordable or
11 supportive housing developments, the department may remit state
12 funding on a reimbursement basis for 100 percent of eligible project
13 costs, regardless of the project's match amount, once the nonstate
14 share of project costs have been either expended or firmly committed
15 in an amount sufficient to complete the entire project or a distinct
16 phase of the project that is useable to the public as an early
17 learning facility. These projects are not subject to section 8015 of
18 this act or RCW 43.88.150.

19 (8) It is the intent of the legislature to reappropriate funding
20 in the 2023-2025 omnibus capital appropriations act for early
21 learning facilities appropriated in this section.

22 (9) (~~(\$17,600,000)~~) \$37,438,000 of the Ruth Lecocq Kagi early

38 follows:

1 **FOR THE DEPARTMENT OF COMMERCE**

2 2024 Local and Community Projects (40000301)

3 The appropriations in this section are subject to the following
4 conditions and limitations:

5 (1) The department shall not expend the appropriation in this
6 section unless and until the nonstate share of project costs have
7 been either expended or firmly committed, or both, in an amount
8 sufficient to complete the project or a distinct phase of the project
9 that is useable to the public for the purpose intended by the
10 legislature. This requirement does not apply to projects where a
11 share of the appropriation is for design costs only.

12 (2) Prior to receiving funds, project recipients must demonstrate
13 that the project site is under control for a minimum of 10 years,
14 either through ownership or a long-term lease. This requirement does
15 not apply to appropriations for preconstruction activities or
16 appropriations in which the sole purpose is to purchase real property
17 that does not include a construction or renovation component.

18 (3) Projects funded in this section may be required to comply
19 with Washington's high performance building standards under chapter
20 39.35D RCW.

21 (4) Project funds are available on a reimbursement basis only and

23 (5) In contracts for grants authorized under this section, the
24 department shall include provisions that require that capital
25 improvements be held by the grantee for a specified period of time
26 appropriate to the amount of the grant and that facilities be used
27 for the express purpose of the grant. If the grantee is found to be
28 out of compliance with provisions of the contract, the grantee shall
29 repay to the state general fund the principal amount of the grant
30 plus interest calculated at the rate of interest on state of
31 Washington general obligation bonds issued most closely to the date
32 of authorization of the grant.

33 (6) Projects funded in this section, including those that are
34 owned and operated by nonprofit organizations, are generally required
35 to pay state prevailing wages.

36 (7) The department must comply with the requirements set forth in
37 executive order 21-02 and must consult with the department of
38 archaeology and historic preservation and affected tribes on the
39 potential effects of these projects on cultural resources and

22 The appropriation in this section is subject to the following
23 conditions and limitations:

24 (1) (a) \$21,450,000 of the appropriation in this section is

19 awarding contracts, and monitoring projects under this section, the
20 department must:

21 (i) Use competitive processes to select all projects, except as
22 otherwise noted in this section. The department must design a
23 competitive process to allow provision of grant award to projects in

36 under the grant, the department in its sole discretion may terminate
37 the grant funding by written notice, and that, if the grant is
38 terminated, the department will reserve its right to pursue all

14 The appropriation in this section is subject to the following
15 conditions and limitations:

16 (1) Except as provided for under subsection (3) of this section,
17 the appropriation in this section is provided solely for the
18 department to acquire working forestlands in Wahkiakum county to be
19 managed for increased carbon sequestration and carbon storage through
20 sustainable timber harvests. Any land purchased must be managed under
21 the department's habitat conservation plan and policy for sustainable
22 forests. Pursuant to subsection (2) of this section, it is the intent
23 of the legislature that these lands serve as replacement land for
24 structurally complex, carbon-dense forestlands designated for
25 conservation and for existing encumbered state forestlands. Once
26 purchased, the lands must be considered as part of the land bank
27 created in RCW 79.19.020. The property must be purchased before the
28 transfer of any existing trust land is fully executed.

29 (2) (a) If the department acquires land pursuant to subsection (1)
30 of this section, it must use the lands acquired for the following
31 purposes: (i) For the permanent conservation of structurally complex,
32 carbon-dense forestland in the Capitol state forest in Thurston
33 county, in the Green Mountain state forest in Kitsap county, in the
34 Stillaguamish watershed in Snohomish county, or in the Elbe Hills
35 State Forest in Pierce county; and (ii) as replacement state
36 forestlands to replace existing encumbered state forestlands in
37 Clallam, Pacific, Skamania, and Wahkiakum counties.

1 (b) If the department acquires land pursuant to subsection (1) of
2 this section, it must allocate the value of any land acquired as
3 follows: (i) Up to \$5,750,000 for the purposes specified in (a)(i) of
4 this subsection (2); and (ii) up to \$8,750,000 for the purposes
5 specified under (a)(ii) of this subsection (2).

6 (c) The department must designate any lands acquired related to
7 (a)(ii) of this subsection (2) as state forest transfer lands.

8 (d) If the department acquires any replacement lands pursuant to
9 this section, it must take the following actions: (i) Designate the
10 lands acquired for management under the department's habitat
11 conservation plan and policy for sustainable forests; (ii) ensure
12 that any acquisition pursuant to this section complies with the
13 allowable purposes of RCW 70A.65.270; and (iii) ensure that any
14 replacement of structurally complex, carbon-dense forested trust land
15 pursuant to (a)(i) of this subsection (2) be of equal value to the
16 land conserved and that replacement land is purchased before the
17 transfer is fully executed.

18 (e) Before conserving any forestland pursuant to (a)(i) of this
19 subsection (2), the department must receive letters nominating
20 specific parcels issued by the legislative authority of the county in
21 which the forestland is located and the approval of the conservation
22 parcel boundaries by the board of natural resources. In no instance
23 may timber with a forest practice application approved prior to March
24 5, 2024, be considered for nomination. County parcel nomination and
25 board approval pursuant to this process must be finalized prior to
26 the transfer of the forestland pursuant to this section. Nothing in
27 this subsection prohibits the conservation of up to 260 acres of
28 structurally complex, carbon-dense forestland in Thurston county.

29 (f) In the 2023-2025 fiscal biennium, the department may
30 designate the structurally complex, carbon-dense forested trust land
31 identified in (a)(i) of this subsection (2) as a natural area
32 preserve or a natural resource conservation area notwithstanding the
33 requirements of chapter 79.70 and 79.71 RCW.

34 (g) In the 2023-2025 fiscal biennium, the legislative authority
35 of the county from which the real property was transferred pursuant
36 to (a)(i) of this subsection (2) may not request that the department
37 distribute a percentage of the proceeds associated with the valuable
38 materials to the legislative authority of the county from which the
39 real property was transferred.

1 (h) Before conserving any forestland pursuant to (a)(i) of this
2 subsection (2), the legislative body of the county must request in
3 writing to participate in a land pool in accordance with RCW
4 79.22.140.

5 (3) The department may use up to \$500,000 of the total
6 appropriation in this section for its administrative costs pursuant
7 to this section.

(End of part)

1 under this section, agencies shall use the most economical financial
2 contract option available, including long-term leases, lease-purchase
3 agreements, lease-development with option to purchase agreements or
4 financial contracts using certificates of participation. Expenditures
5 made by an agency for one of the indicated purposes before the issue
6 date of the authorized financial contract and any certificates of
7 participation therein are intended to be reimbursed from proceeds of
8 the financial contract and any certificates of participation therein
9 to the extent provided in the agency's financing plan approved by the
10 state finance committee.

11 (2) Those noninstructional facilities of higher education
12 institutions authorized in this section to enter into financial
13 contracts are not eligible for state funded maintenance and
14 operations. Instructional space that is available for regularly
15 scheduled classes for academic transfer, basic skills, and workforce
16 training programs may be eligible for state funded maintenance and
17 operations.

18 (3) Secretary of state: Enter into a financing contract for up to
19 \$119,000,000 plus financing expenses, required reserves, and
20 capitalized interest pursuant to chapter 39.94 RCW to construct a new
21 library-archives building.

22 (4) Department of social and health services: Enter into a
23 financing contract for up to \$175,888,000 plus costs and financing
24 expenses, required reserves, and capitalized interest pursuant to
25 chapter 39.94 RCW to construct a nursing facility on the Fircrest
26 residential habilitation center campus. The department may contract
27 to lease develop or lease purchase the facility. Before entering into
28 a contract, the department must consult with the office of financial
29 management and the office of the state treasurer. Should the
30 department of social and health services choose to use a financing
31 contract that does not provide for the issuance of certificates of
32 participation, the financing contract shall be subject to approval by
33 the state finance committee as required by RCW 39.94.010. In
34 approving a financing contract not providing for the use of
35 certificates of participation, the state finance committee should be
36 reasonably certain that the contract is excluded from the computation
37 of indebtedness, particularly that the contract is not backed by the
38 full faith and credit of the state and the legislature is expressly
39 not obligated to appropriate funds to make payments. For purposes of
40 this subsection, "financing contract" includes but is not limited to

1 a certificate of participation and tax exempt financing similar to
2 that authorized in RCW 47.79.140.

3 (5) Western Washington University: Enter into a financing
4 contract for up to \$4,900,000 plus costs and financing expenses,
5 required reserves, and capitalized interest pursuant to chapter 39.94
6 RCW to construct an electrical engineering and computer science
7 building.

8 (6) The state board for community and technical colleges: Enter
9 into a financing contract for up to \$2,000,000 plus costs and
10 financing expenses, required reserves, and capitalized interest

12 technical college.

13 (7) The Evergreen State College: Enter into a financing contract
14 for up to \$4,400,000 plus costs and financing expenses, required
15 reserves, and capitalized interest pursuant to chapter 39.94 RCW to
16 reopen unused residence halls.

17 **Sec. 8004.** RCW 70A.65.305 and 2022 c 253 s 1 are each amended to
18 read as follows:

19 (1) Agencies that allocate funding or administer grant programs
20 appropriated from the climate investment account created in RCW
21 70A.65.250, the climate commitment account created in RCW 70A.65.260,
22 and the natural climate solutions account created in RCW 70A.65.270
23 must offer early, meaningful, and individual consultation with any
24 affected federally recognized tribe on all funding decisions and
25 funding programs that may impact tribal resources, including tribal
26 cultural resources, archaeological sites, sacred sites, fisheries, or
27 other rights and interests in tribal lands and lands within which a
28 tribe or tribes possess rights reserved or protected by federal
29 treaty, statute, or executive order. The consultation is independent
30 of, and in addition to, any public participation process required by
31 federal or state law, or by a federal or state agency, including the
32 requirements of Executive Order 21-02 related to archaeological and
33 cultural resources, and regardless of whether the agency receives a
34 request for consultation from a federally recognized tribe. The goal
35 of the consultation process is to identify tribal resources or rights
36 potentially affected by the funding decisions and funding programs,
37 assess their effects, and seek ways to avoid, minimize, or mitigate
38 any adverse effects on tribal resources or rights.

1 (2) At the earliest possible date prior to submittal of an
2 application, applicants for funding from the accounts created in RCW
3 70A.65.250, 70A.65.260, and 70A.65.270 shall engage in a
4 preapplication process with all affected federally recognized tribes
5 within the project area. During the 2023-2025 fiscal biennium, salmon
6 habitat and climate resilience projects funded from the natural
7 climate solutions account created in RCW 70A.65.270 that went through
8 the application and prioritization process before July 1, 2023, are
9 exempt from the preapplication requirements under this subsection.

10 (a) The preapplication process must include the applicant
11 notifying the department of archaeology and historic preservation,
12 the department of fish and wildlife, and all affected federally
13 recognized tribes within the project area. The notification must
14 include geographical location, detailed scope of the proposed
15 project, preliminary application details available to federal, state,
16 or local governmental jurisdictions, and all publicly available
17 materials, including public funding sources.

18 (b) The applicant must also offer to discuss the project with the
19 department of archaeology and historic preservation, the department
20 of fish and wildlife, and all affected federally recognized tribes
21 within the project area. Discussions may include the project's impact
22 to tribal resources, including tribal cultural resources,
23 archaeological sites, sacred sites, fisheries, or other rights and
24 interests in tribal lands and lands within which a tribe or tribes
25 possess rights reserved or protected by federal treaty, statute, or
26 executive order.

27 (c) All affected federally recognized tribes may submit to the
28 appropriate agency or agencies a summary of tribal issues, questions,
29 concerns, or other statements regarding the project, which must
30 become part of the official application file. The summary does not
31 limit what issues affected federally recognized tribes may raise in
32 the consultation process identified in subsections (1), (3) through
33 (7), and (9) of this section.

34 (d) The notification and offer to initiate discussion must be
35 documented with the application when it is filed, and a copy of the
36 application must be delivered to the department of archaeology and
37 historic preservation, the department of fish and wildlife, and to
38 the affected federally recognized tribe or tribes. If the discussions
39 pursuant to (b) of this subsection do not occur, the applicant must
40 document the reason why the discussion or discussions did not occur.

1 (e) Nothing in this section may be interpreted to require the
2 disclosure of information that is exempt from disclosure pursuant to
3 RCW 42.56.300 or federal law, including section 304 of the national
4 historic preservation act of 1966. Any information that is exempt
5 from disclosure pursuant to RCW 42.56.300 or federal law, including
6 section 304 of the national historic preservation act of 1966, shall
7 not become part of the official application file.

8 (3) If any funding decision, program, project, or activity that
9 may impact tribal resources, including tribal cultural resources,
10 archaeological sites, sacred sites, fisheries, or other rights and
11 interests in tribal lands and lands within which a tribe or tribes
12 possess rights reserved by federal treaty, statute, or executive
13 order is funded from the accounts created in RCW 70A.65.250,
14 70A.65.260, and 70A.65.270 without such a consultation with an
15 affected federally recognized tribe, the affected federally
16 recognized tribe may request that all further action on the decision,
17 program, project, or activity cease until meaningful consultation is
18 completed. Upon receipt of such a request by an agency or agencies
19 with the authority to allocate funding or administer grant programs
20 from the accounts listed in subsection (1) of this section in support
21 of the proposed project, further action by the agency or agencies on
22 any decision, program, project, or activity that would result in
23 significant physical disturbance of the tribal resource or resources
24 described in this subsection must cease until the consultation has
25 been completed.

26 (4) Upon completion of agency and tribal consultation, an
27 affected federally recognized tribe may request a formal review of
28 the consultation by submitting a request to the governor's office of
29 Indian affairs and notifying the appropriate agencies and the
30 department of archaeology and historic preservation. The state
31 agencies and tribe must meet to initiate discussion within no more
32 than 20 days of the request. This consultation must be offered and
33 conducted separately with each affected federally recognized tribe,
34 unless the tribes agree to conduct a joint consultation with the
35 state.

36 (5) After the state agencies and tribe or tribes have conducted a
37 formal review under subsection (4) of this section, an affected
38 federally recognized tribe or state agency may request that the
39 governor and an elected tribal leader or leaders of a federally
40 recognized tribal government meet to formally consider the

1 recommendations from the parties. If requested, this meeting must
2 occur within 30 days of the request, except that a federally
3 recognized tribe may choose to opt out of the meeting. This timeline
4 may be extended by mutual agreement between the governor and the
5 tribal leaders.

6 (6) After the meeting identified in subsection (5) of this
7 section has occurred, the governor or an elected tribal leader of a
8 federally recognized tribe may call for the state and tribe or tribes
9 to enter into formal mediation, except that a federally recognized
10 tribe may choose to opt out of the mediation. If entered into, the
11 mediation must be conducted as a government-to-government proceeding,
12 with each sovereign government retaining their right to a final
13 decision that meets their separate obligations and interests.
14 Mediators must be jointly selected by the parties to the mediation.
15 An agreement between the governor and a tribal leader or leaders
16 resulting from the mediation is formally recognized and binding on
17 the signatory parties. Absent an agreement, participation in
18 mediation does not preclude any additional steps that any party can
19 initiate, including legal review, to resolve a continuing
20 disagreement.

21 (7) During the proceedings outlined in subsections (4) through
22 (6) of this section, the agency or agencies with the authority to
23 allocate funding or administer grant programs from the accounts
24 listed in subsection (1) of this section in support of the proposed
25 project may not approve or release funding, or make other formal
26 decisions, including permitting, that advance the proposed project
27 except where required by law.

28 (8) By June 30, 2023, the governor's office of Indian affairs, in
29 coordination with the department of archaeology and historic
30 preservation and federally recognized tribes, shall develop a state
31 agency tribal consultation process, including best practices for
32 early, meaningful, and effective consultation, early notification and
33 engagement by applicants with federally recognized tribes as a part
34 of the preapplication process in subsection (2) of this section, and
35 protocols for communication and collaboration with federally
36 recognized tribes. The consultation process developed under this
37 section must be periodically reviewed and updated in coordination
38 with federally recognized tribes. The governor's office of Indian
39 affairs must provide training and other technical assistance to state
40 agencies, as they implement the required consultation.

1 Notwithstanding the governor's office of Indian affairs' ongoing work
2 pursuant to this subsection, the provisions of subsections (1)
3 through (7) and (9) of this section become effective as of June 9,
4 2022.

5 (9) The requirements of this section apply to local governments
6 that receive funding from the accounts created in RCW 70A.65.250,
7 70A.65.260, and 70A.65.270, where that funding is disbursed to
8 project and program applicants. Where requested, the governor's
9 office of Indian affairs must provide training and other technical
10 assistance to local government agencies as they implement the
11 consultation requirements of this section.

12 (10) Any agency subject to or implementing this section may adopt
13 rules in furtherance of its duties under this section.

14 (11) Subject to the availability of amounts appropriated for this
15 specific purpose, the department must establish a tribal capacity
16 grant program to provide funding to federally recognized tribes for
17 the costs of implementing this section.

18 **Sec. 8005.** RCW 79.64.020 and 2014 c 32 s 3 are each amended to
19 read as follows:

20 A resource management cost account in the state treasury is
21 created to be used solely for the purpose of defraying the costs and
22 expenses necessarily incurred by the department in managing and
23 administering state lands((~~r~~)) and aquatic lands((~~r~~)) and the making
24 and administering of leases, sales, contracts, licenses, permits,
25 easements, and rights-of-way as authorized under the provisions of
26 this title. Appropriations from the resource management cost account
27 to the department shall be expended for no other purposes. Funds in
28 the resource management cost account may be appropriated or
29 transferred by the legislature for the benefit of all of the trusts
30 from which the funds were derived. During the 2013-2015 fiscal
31 biennium, the legislature may transfer from the aquatics revenues in
32 the resources management cost account to the marine resources
33 stewardship trust account for the purposes of chapter 43.372 RCW.
34 During the 2023-2025 fiscal biennium, the legislature may transfer no
35 more than \$2,000,000 from the resource management cost account to the
36 land bank account created in RCW 79.19.120.

37 NEW SECTION. **Sec. 8006.** On June 30, 2024, the state treasurer
38 shall transfer \$2,000,000, or as much thereof as is necessary, from

1 the resource management cost account created in RCW 79.64.020 to the
2 land bank account created in RCW 79.19.120. Before June 30, 2024, the
3 office of financial management, in consultation with the department
4 of natural resources, shall provide the state treasurer with the
5 amount necessary to transfer.

6 **Sec. 8007.** RCW 79A.25.210 and 2023 c 475 s 945 are each amended
7 to read as follows:

8 The firearms range account is hereby created in the state general
9 fund. Moneys in the account shall be subject to legislative
10 appropriation and shall be used for purchase and development of land,
11 construction or improvement of range facilities, including fixed
12 structure construction or remodeling, equipment purchase, safety or
13 environmental improvements, noise abatement, and liability protection
14 for public and nonprofit firearm range training and practice
15 facilities.

16 Grant funds shall not be used for expendable shooting supplies,
17 or normal operating expenses. In making grants, the board shall give
18 priority to projects for noise abatement or safety improvement. Grant
19 funds shall not supplant funds for other organization programs.

20 The funds will be available to nonprofit shooting organizations,
21 school districts, and state, county, or local governments on a match
22 basis. All entities receiving matching funds must be open on a
23 regular basis and usable by law enforcement personnel or the general
24 public who possess Washington concealed pistol licenses or Washington
25 hunting licenses or who are enrolled in a firearm safety class.

26 Applicants for a grant from the firearms range account shall
27 provide matching funds in either cash or in-kind contributions. The
28 match must represent one dollar in value for each one dollar of the
29 grant except that in the case of a grant for noise abatement or
30 safety improvements the match must represent one dollar in value for
31 each two dollars of the grant. In-kind contributions include but are
32 not limited to labor, materials, and new property. Existing assets
33 and existing development may not apply to the match.

34 Applicants other than school districts or local or state
35 government must be registered as a nonprofit or not-for-profit
36 organization with the Washington secretary of state. The
37 organization's articles of incorporation must contain provisions for
38 the organization's structure, officers, legal address, and registered
39 agent.

1 Organizations requesting grants must provide the hours of range
2 availability for public and law enforcement use. The fee structure
3 will be submitted with the grant application.

4 Any nonprofit organization or agency accepting a grant under this
5 program will be required to pay back the entire grant amount to the
6 firearms range account if the use of the range facility is
7 discontinued less than ten years after the grant is accepted.

8 Entities receiving grants must make the facilities for which
9 grant funding is received open for hunter safety education classes
10 and firearm safety classes on a regular basis for no fee.

11 Government units or school districts applying for grants must
12 open their range facility on a regular basis for hunter safety
13 education classes and firearm safety classes.

14 The board shall adopt rules to implement chapter 195, Laws of
15 1990, pursuant to chapter 34.05 RCW. During the 2017-2019 and
16 2019-2021 fiscal biennia, expenditures from the firearms range
17 account may be used to implement chapter 74, Laws of 2017 (SHB 1100)
18 (concealed pistol licenses) and chapter 282, Laws of 2017 (SB 5268)
19 (concealed pistol license notices). During the 2021-2023 and
20 2023-2025 fiscal biennia, expenditures from the firearms range
21 account may be used to implement chapter 74, Laws of 2017 (SHB 1100)
22 (concealed pistol licenses).

23 During the 2023-2025 fiscal biennium, the legislature may also
24 appropriate moneys in the firearms range account to the department of
25 natural resources for recreational target shooting pilot sites as
26 provided in section 3032 of this act.

27 During the 2023-2025 fiscal biennium, the application and
28 matching funds requirements of this section do not apply to the
29 recreational target shooting pilot sites in section 3032 of this act.

30 NEW SECTION. Sec. 8008. (1)(a) The director of the office of
31 financial management, or the director's designee, shall collect a
32 list of clean energy projects from state agencies that may qualify
33 for elective payment under P.L. 117-169 (inflation reduction act of
34 2022), such as the purchase of electric vehicle fleets; alternative
35 fuel vehicle refueling and charging; and renewable energy projects
36 including wind, solar, geothermal, electrolytic hydrogen, and energy
37 storage.

38 (b) For tax years 2023 and 2024, the director or director's
39 designee shall work with agencies, including institutions of higher

1 education, to complete all steps necessary to file an annual tax
2 return with the United States internal revenue service on behalf of
3 the state in order to claim elective payments available for state
4 agency clean energy projects that have been placed into service.

5 (2) The office of financial management shall provide a report to
6 the fiscal committees of the legislature by July 1, 2024, and June
7 30, 2025, that summarizes the state's tax return submitted that year,
8 including the total dollar value of projects included in the tax
9 return and the total dollar amount of direct pay tax credits sought.
10 The report must also include an itemized list of the projects that
11 displays the dollar amounts and types of tax credits sought.

12 (3) Funds received by the state pursuant to this section shall be
13 deposited into the inflation reduction elective pay account created
14 in chapter . . . (Engrossed Senate Bill No. 6098), Laws of 2024
15 (concerning accounts).

16 (4) It is the intent of the legislature that funds received under
17 this section will be allocated to capital projects through omnibus
18 capital appropriations acts.

19 **Sec. 8009.** RCW 70A.305.190 and 2022 c 102 s 2 are each amended
20 to read as follows:

21 (1) The model toxics control capital account is hereby created in
22 the state treasury.

23 (2) In addition to the funds deposited into the model toxics
24 control capital account required under RCW 82.21.030, the following
25 moneys must be deposited into the model toxics control capital
26 account:

27 (a) The costs of remedial actions recovered under this chapter,
28 except as provided under RCW 70A.305.170(7);

29 (b) Penalties collected or recovered under this chapter; and

30 (c) Any other money appropriated or transferred to the account by
31 the legislature.

32 (3) Moneys in the model toxics control capital account must be
33 used for the improvement, rehabilitation, remediation, and cleanup of
34 toxic sites and other capital-related expenditures for programs and
35 activities identified in subsection (4) of this section.

36 (4) Moneys in the model toxics control capital account may be
37 used only for capital projects and activities that carry out the
38 purposes of this chapter and for financial assistance to local
39 governments or other persons to carry out those projects or

1 activities, including but not limited to the following, generally in
2 descending order of priority:

3 (a) Remedial actions, including the following generally in
4 descending order of priority:

5 (i) Extended grant agreements entered into under subsection
6 (5)(a) of this section;

7 (ii) Grants or loans to local governments for remedial actions,
8 including planning for adaptive reuse of properties as provided for
9 under subsection (5)(d) of this section. The department must
10 prioritize funding of remedial actions at:

11 (A) Facilities on the department's hazardous sites list with a
12 high hazard ranking for which there is an approved remedial action
13 work plan or an equivalent document under federal cleanup law;

14 (B) Brownfield properties within a redevelopment opportunity zone
15 if the local government is a prospective purchaser of the property
16 and there is a department-approved remedial action work plan or
17 equivalent document under the federal cleanup law;

18 (iii) Department-conducted remedial actions;

19 (iv) Grants to persons intending to remediate contaminated real
20 property for development of affordable housing;

21 (v) Public funding to assist potentially liable persons to pay
22 for the costs of remedial action in compliance with clean-up
23 standards under RCW 70A.305.030(2)(e) if:

24 (A) The amount and terms of the funding are established under a
25 settlement agreement under RCW 70A.305.040(4); and

26 (B) The director has found that the funding will achieve both a
27 substantially more expeditious or enhanced cleanup than would
28 otherwise occur, and the prevention or mitigation of unfair economic
29 hardship;

30 (vi) Public funding to assist prospective purchasers to pay for
31 the costs of remedial action in compliance with clean-up standards
32 under RCW 70A.305.030(2)(e) if:

33 (A) The facility is located within a redevelopment opportunity
34 zone designated under RCW 70A.305.150;

35 (B) The amount and terms of the funding are established under a
36 settlement agreement under RCW 70A.305.040(5); and

37 (C) The director has found the funding will achieve a
38 substantially more expeditious or enhanced cleanup than would
39 otherwise occur, provide a public benefit in addition to cleanup

1 commensurate with the scope of the public funding; and meet any
2 additional criteria established in rule by the department; and

3 (vii) To expedite multiparty clean-up efforts, purchase of
4 remedial action cost-cap insurance;

5 (b) Grants, or loans, or contracts to local governments for solid
6 waste plans and programs under chapters 70A.205, 70A.214, 70A.224,
7 70A.222, 70A.230, and 70A.300 RCW. Funds must be allocated consistent
8 with priorities and matching requirements in the respective chapters;

9 (c) Toxic air pollutant reduction programs, including grants or
10 loans to local governments for woodstoves and diesel;

11 (d) Grants, loans, or contracts to local governments for
12 hazardous waste plans and programs under chapters 70A.405 and 70A.300
13 RCW, including chemical action plan implementation. Funds must be
14 allocated consistent with priorities and matching requirements in the
15 respective chapters; and

16 (e) Petroleum-based plastic or expanded polystyrene foam debris
17 clean-up activities in fresh or marine waters.

18 (5) The department may establish and administer a program to
19 provide grants and loans to local governments for remedial actions,
20 including planning for adaptive reuse of contaminated properties. To
21 expedite cleanups throughout the state, the department may use the
22 following strategies when providing grants to local governments under
23 this subsection:

24 (a) Enter into an extended grant agreement with a local
25 government conducting remedial actions at a facility where those
26 actions extend over multiple biennia and the total eligible cost of
27 those actions exceeds \$20,000,000. The agreement is subject to the
28 following limitations:

29 (i) The initial duration of such an agreement may not exceed 10
30 years. The department may extend the duration of such an agreement
31 upon finding substantial progress has been made on remedial actions
32 at the facility;

33 (ii) Extended grant agreements may not exceed 50 percent of the
34 total eligible remedial action costs at the facility; and

35 (iii) The department may not allocate future funding to an
36 extended grant agreement unless the local government has demonstrated
37 to the department that funds awarded under the agreement during the
38 previous biennium have been substantially expended or contracts have
39 been entered into to substantially expend the funds;

1 (b) Enter into a grant agreement with a local government
2 conducting a remedial action that provides for periodic reimbursement
3 of remedial action costs as they are incurred as established in the
4 agreement;

5 (c) Enter into a grant agreement with a local government prior to
6 it acquiring a property or obtaining necessary access to conduct
7 remedial actions, provided the agreement is conditioned upon the
8 local government acquiring the property or obtaining the access in
9 accordance with a schedule specified in the agreement;

10 (d) Provide integrated planning grants to local governments to
11 fund studies necessary to facilitate remedial actions at brownfield
12 properties and adaptive reuse of properties following remediation.
13 Eligible activities include, but are not limited to: Environmental
14 site assessments; remedial investigations; health assessments;
15 feasibility studies; site planning; community involvement; land use
16 and regulatory analyses; building and infrastructure assessments;
17 economic and fiscal analyses; and any environmental analyses under
18 chapter 43.21C RCW;

19 (e) Provide grants to local governments for remedial actions
20 related to area-wide groundwater contamination. To receive the
21 funding, the local government does not need to be a potentially
22 liable person or be required to seek reimbursement of grant funds
23 from a potentially liable person;

24 (f) The director may alter grant matching requirements to create
25 incentives for local governments to expedite cleanups when one of the
26 following conditions exists:

27 (i) Funding would prevent or mitigate unfair economic hardship
28 imposed by the clean-up liability;

29 (ii) Funding would create new substantial economic development,
30 public recreational opportunities, or habitat restoration
31 opportunities that would not otherwise occur; or

32 (iii) Funding would create an opportunity for acquisition and
33 redevelopment of brownfield property under RCW 70A.305.040(5) that
34 would not otherwise occur; and

35 (g) When pending grant applications under subsection (4)(d) and
36 (e) of this section exceed the amount of funds available, designated
37 redevelopment opportunity zones must receive priority for
38 distribution of available funds.

1 (6) Except for unanticipated receipts under RCW 43.79.260 through
2 43.79.282, moneys in model toxics control capital account may be
3 spent only after appropriation by statute.

4 (7) The legislature finds that, in 2023, wildfires in Spokane and
5 Pend Oreille counties resulted in a loss of approximately 366 homes
6 as well as secondary buildings. The burning of these structures has
7 resulted in a large toxic debris field containing asbestos, heavy
8 metals, plastics, and fuel which are at risk of leaching into the
9 soil and groundwater. During the 2023-2025 fiscal biennium, moneys in
10 the model toxics control capital account may be used for financial
11 assistance to local governments for the testing of hazardous
12 materials, removal of debris, and remediation of soil necessary to
13 support the rebuilding of communities impacted by these wildfires.

14 **Sec. 8010.** RCW 43.19.125 and 2011 1st sp.s. c 43 s 204 are each
15 amended to read as follows:

16 (1) The director of enterprise services shall have custody and
17 control of the capitol buildings and grounds, supervise and direct
18 proper care, heating, lighting and repairing thereof, and designate
19 rooms in the capitol buildings to be occupied by various state
20 officials.

21 ~~(2) ((During the 2007-2009 biennium, responsibility for~~
22 ~~development of the "Wheeler block" on the capitol campus as~~
23 ~~authorized in section 6013, chapter 520, Laws of 2007 shall be~~
24 ~~transferred from the department of general administration to the~~
25 ~~department of information services.))~~ During the 2023-2025 fiscal
26 biennium, the director must give legislative members reasonable
27 access to reserve and utilize the reception room in the state
28 legislative building when not otherwise booked.

29 **Sec. 8011.** RCW 79.22.060 and 2023 c 383 s 6 are each amended to
30 read as follows:

31 (1) With the approval of the board, the department may directly
32 transfer or dispose of state forestlands without public auction, if
33 the transfers are:

34 (a) In lieu of condemnation or to resolve trespass and property
35 ownership disputes and the lands consist of 10 contiguous acres or
36 less or have a value of \$25,000 or less; or

37 (b) To public agencies as defined in RCW 79.17.200.

1 (2) Real property to be transferred or disposed of under this
2 section shall be transferred or disposed of only after appraisal and
3 for at least fair market value, and only if the transaction is in the
4 best interest of the state or affected trust. Valuable materials
5 attached to lands to be transferred under subsection (1)(b) of this
6 section must be appraised at the fair market value without
7 consideration of management or regulatory encumbrances associated
8 with wildlife species listed under the federal endangered species
9 act, if any.

10 (3)(a) Except as provided in this subsection, the proceeds from
11 real property transferred or disposed of under this section shall be
12 deposited into the parkland trust revolving fund and be solely used
13 to buy replacement forestland for the benefit of the county from
14 which the property was transferred or disposed and pay for the
15 department's administrative expenses to complete the transfer,
16 including the cost of department staff time, appraisals, surveys,
17 environmental reviews, and other similar costs of the transfer. The
18 legislative authority of the county from which the real property was
19 transferred or disposed under subsection (1)(b) of this section may
20 request in writing that the department distribute a percentage of the
21 proceeds associated with valuable materials. Upon such a request, and
22 subject to prior approval by the board, the department shall
23 distribute the requested percentage of proceeds associated with
24 valuable materials as provided in RCW 79.64.110.

25 (b) The proceeds from real property transferred or disposed of
26 under this section for the purpose of participating in the state
27 forestland pool created under RCW 79.22.140 must be deposited into
28 the parkland trust revolving fund and used to buy replacement
29 forestland for the benefit of that county, as provided in RCW
30 79.64.110 and located within any county participating in the land
31 pool or under a county agreement as provided in RCW 79.22.140.

32 (c) Except as otherwise provided in this subsection, in counties
33 with a population of 25,000 or less, the portion of the proceeds
34 associated with valuable materials on state forestland transferred
35 under this section must be distributed as provided in RCW 79.64.110.
36 If requested in writing by the legislative authority of a county
37 participating in the state forestland pool created under RCW
38 79.22.140, the portion of the proceeds associated with valuable
39 materials on state forestland transferred under this section must be
40 deposited in the parkland trust revolving fund and used to buy

1 replacement forestland for the benefit of that county, as provided in
2 RCW 79.64.110, and located within any county participating in the
3 land pool or under a county agreement as provided in RCW 79.22.140.

4 (4) During the 2023-2025 fiscal biennium, the ability of a
5 legislative authority of a county to request the distribution of
6 proceeds from valuable materials under subsection (3)(a) of this
7 section does not apply to structurally complex, carbon-dense forested
8 trust land transferred under section 3034 of this act.

9 **Sec. 8012.** RCW 79.70.100 and 1998 c 50 s 2 are each amended to
10 read as follows:

11 The department shall hold a public hearing in the county where
12 the majority of the land in a proposed natural area preserve is
13 located prior to establishing the boundary. During the 2023-2025
14 fiscal biennium, this section does not apply to section 3034 of this
15 act.

16 **Sec. 8013.** RCW 79.71.060 and 1991 c 352 s 5 are each amended to
17 read as follows:

18 The department shall hold a public hearing in the county where
19 the majority of the land in the proposed natural resources
20 conservation area is located prior to establishing the boundary. An
21 area proposed for designation must contain resources consistent with
22 characteristics identified in RCW 79.71.020. During the 2023-2025
23 fiscal biennium, this section does not apply to section 3034 of this
24 act.

25 **Sec. 8014.** RCW 43.63A.750 and 2022 c 121 s 1 are each amended to
26 read as follows:

27 (1) A competitive grant program to assist nonprofit organizations
28 in acquiring, constructing, or rehabilitating performing arts, art
29 museums, and cultural facilities is created.

30 (2)(a) The department shall submit a list of recommended
31 performing arts, art museum projects, and cultural organization
32 projects eligible for funding to the governor and the legislature in
33 the department's biennial capital budget request beginning with the
34 2001-2003 biennium and thereafter. The list, in priority order, shall
35 include a description of each project, the amount of recommended
36 state funding, and documentation of nonstate funds to be used for the

1 project. The total amount of recommended state funding for projects
2 on a biennial project list shall not exceed \$18,000,000.

3 (b) The department shall establish a competitive process to
4 prioritize applications for state assistance as follows:

5 (i) The department shall conduct a statewide solicitation of
6 project applications from nonprofit organizations, local governments,
7 and other entities, as determined by the department. For applications
8 submitted during the 2023-2025 fiscal biennium, nonprofit
9 organizations that are certified by the association of zoos and
10 aquariums and that have long-term operating or management agreements
11 are eligible to apply. The department shall evaluate and rank
12 applications in consultation with a citizen advisory committee,
13 including a representative from the state arts commission, using
14 objective criteria. The evaluation and ranking process shall also
15 consider local community support for projects and an examination of
16 existing assets that applicants may apply to projects.

17 (ii) The department may establish the amount of state grant
18 assistance for individual project applications but the amount shall
19 not exceed thirty-three and one-third percent of the estimated total
20 capital cost or actual cost of a project, whichever is less. The
21 remaining portions of the project capital cost shall be a match from
22 nonstate sources. The nonstate match may include cash, the value of
23 real property when acquired solely for the purpose of the project,
24 and in-kind contributions. The department is authorized to set
25 matching requirements for individual projects. State assistance may
26 be used to fund separate definable phases of a project if the project
27 demonstrates adequate progress and has secured the necessary match
28 funding.

29 (iii) The department shall not sign contracts or otherwise
30 financially obligate funds under this section until the legislature
31 has approved a specific list of projects. In contracts for grants
32 authorized under this section, the department shall include
33 provisions requiring that capital improvements be held by the grantee
34 for a specified period of time appropriate to the amount of the grant
35 and that facilities be used for the express purpose of the grant. If
36 the grantee is found to be out of compliance with provisions of the
37 contract, the grantee shall repay to the state general fund the
38 principal amount of the grant plus interest calculated at the rate of
39 interest on state of Washington general obligation bonds issued most
40 closely to the date of authorization of the grant.

1 NEW SECTION. **Sec. 8015.** If any provision of this act or its
2 application to any person or circumstance is held invalid, the
3 remainder of the act or the application of the provision to other
4 persons or circumstances is not affected.

5 NEW SECTION. **Sec. 8016.** This act is necessary for the immediate
6 preservation of the public peace, health, or safety, or support of
7 the state government and its existing public institutions, and takes
8 effect immediately.
