1 (2) The legislature finds that the current balance of and
2 projected revenues into the Alaskan Way viaduct replacement project
3 account are sufficient to meet financial obligations during fiscal
4 years 2024 and 2025.

5 (3) Within the parameters established under RCW 47.56.880, the
6 commission shall review toll revenue performance on the Interstate
7 405 and state route number 167 corridor and adjust Interstate 405
8 tolls as appropriate to increase toll revenue to provide sufficient

22 systems. The study must also review current criteria used to define
23 the state highway system to determine if such criteria continue to be
24 applicable. The commission shall submit a report of study findings
25 and recommendations to the transportation committees of the
26 legislature by July 1, 2025.

27 (5) The commission may coordinate with the department of
28 transportation to jointly seek federal funds available through the
29 federal strategic innovations in revenue collection grant program,
30 applying toll credits for meeting match requirements. The commission
31 must provide draft applications for federal grant opportunities to
32 the chairs and ranking members of the transportation committees of
33 the legislature for review and comment prior to submission.

34 (6) The transportation commission shall conduct an assessment
35 aimed at identifying approaches to streamlining the current rule-
36 making process for setting toll rates and policies for eligible toll
37 facilities, while maintaining public access and providing
38 opportunities to provide input on proposals. The intent of the
39 assessment is to identify rule-making approaches that support the
40 state's ability to set toll rates and policies in a timely and

1 efficient manner, so that the state can meet anticipated funding
2 obligations. This assessment should include a review of rate-setting
3 processes used by toll authorities in other states. The

17 provided solely for the commission to carry out a study assessing
18 approaches to increasing safety and compliance of high occupancy
19 vehicle lanes, express toll lanes, tolled facilities, and
20 construction zones, facilitated by advanced technologies.

21 (a) The approaches assessed must, at a minimum, focus on advanced
22 roadside technologies that: Are able to operate independently without
23 connection to the department of transportation's existing
24 communication systems and utilities; have a limited physical
25 footprint that does not use over-roadway infrastructure; and have a
26 95 percent or greater license plate reading accuracy.

27 (b) The study must review current laws, including assessing
28 underlying policies related to prohibitions on program cost coverage
29 coming from infraction or other revenues generated by advanced
30 technology systems, and identify provisions needed to enable a future
31 technology-based safety and compliance program.

32 (c) The commission shall submit an interim report to the
33 transportation committees of the legislature by January 10, 2024,
34 that, at a minimum, provides an initial assessment of the viability
35 of deploying a system into operation. A final report of findings and
36 recommendations must be submitted to the transportation committees of
37 the legislature by June 30, 2024.

38 (9) \$75,000 of the multimodal transportation account—state
39 appropriation is provided solely for the commission to carry out an
40 initial assessment and scoping effort to determine the feasibility of

1 creating a future west coast transportation network plan. This plan
2 would serve to proactively identify and coordinate improvements and
3 investments across the west coast states to freight rail, passenger
4 rail, highways, and air transportation. The intent for the plan is to
5 leverage and align west coast efforts to reduce our collective carbon
6 footprint, improve freight and passenger mobility, and strengthen
7 west coast resiliency. This effort must be carried out in partnership
8 with the Oregon and California transportation commissions and the
9 state department of transportations from each state, and must
10 consider, but not be limited to:

11 (a) Current state activities, investments, and plans that support
12 the establishment of clean transportation in the air, on the
13 highways, and on rail lines moving freight and passengers;

14 (b) Currently identified resiliency risks along the west coast
15 and existing strategic plans and investments that could inform a
16 future west coast unified plan; and

17 (c) Incorporation of work from the statewide transportation
18 policy plan.

19 (10) \$250,000 of the motor vehicle account—state appropriation is
20 provided solely for the commission to carry out engagement with
21 Washington stakeholders on the results of the recently completed
22 Forward Drive research program to inform next steps on road usage
23 charging. The commission must submit a report of findings and
24 recommendations to the transportation committees of the legislature
25 by December 1, 2024.

35 emission medium and heavy-duty vehicles to further state climate
36 goals under RCW 70A.45.020 and state equity goals under chapter
37 70A.02 RCW. The voucher incentive program must be administered by a
38 third-party administrator that has experience administering voucher
39 incentive programs, with oversight conducted by the department.

22 preparedness.

23 (iii) The following battery electric and hydrogen fuel cell
24 electric vehicle categories and associated charging, as well as
25 refueling infrastructure for these categories, are eligible for the

32 (iv) School buses and transit vehicles eligible for state grant
33 programs for the purchase of zero-emission vehicles are not eligible
34 for vouchers under this program, but are eligible for fleet
35 assistance provided in association with the voucher program, which
36 must include assistance in determining state and federal grant
37 eligibility for these vehicles.

38 (v) The voucher amounts selected by the department and voucher
39 program third-party administrator must further the policy goals of

18 appropriation is provided solely for the department to coordinate
19 with cities, counties, ports, and private entities to develop
20 actionable recommendations for state assistance in the development of
21 specific candidate truck parking sites to be developed with
22 amenities, identified by location. The department shall identify
23 private land parcels for potential development of sites, which may
24 include, but should not be limited to, a feasibility analysis of
25 sites adjacent to Interstate 90 near North Bend for a 400 to 600
26 space truck parking site. The public benefit of each potential truck
27 parking site must be included in this assessment. The department
28 shall consider opportunities for the state to provide assistance in
29 the development of truck parking sites, including possible
30 opportunities to provide assistance in land acquisition and
31 evaluating land use requirements. The department must update the
32 transportation committees of the legislature on agency activities and
33 their status by December 1, 2023, and to provide a final report to
34 the transportation committees of the legislature by December 1, 2024.

35 ~~((8) Beginning January 1, 2025, \$10,000,000 of the carbon~~
36 ~~emissions reduction account state appropriation is provided solely~~

38 ~~to finance hydrogen refueling infrastructure for medium and heavy-~~
39 ~~duty vehicles with a focus on locations in disadvantaged and~~

1 overburdened communities, where possible. The department, in
2 consultation with the interagency electric vehicle coordinating
3 council, should pursue any federal funding available through the
4 charging and fueling infrastructure discretionary grant program and
5 any other sources under the federal infrastructure investment and
6 jobs act (P.L. 29 117-58).

5 state appropriation is provided solely for the department to enter
6 into a dispute resolution process with local jurisdictions to produce
7 interagency agreements to address the ongoing facility and landscape
8 maintenance of the three state route number 520 eastside lids and
9 surrounding areas at the Evergreen Point Road, 84th Avenue NE, and
10 92nd Avenue NE.

11 (b) The agreements pursuant to (a) of this subsection must be

14 appropriation is provided solely for the department to address the
15 risks to safety and public health associated with homeless
16 encampments on department owned rights-of-way. The department must
17 coordinate and work with local government officials and social
18 service organizations who provide services and direct people to
19 housing alternatives that are not in highway rights-of-way to help
20 prevent future encampments from forming on highway rights-of-way and
21 may reimburse the organizations doing this outreach assistance who
22 transition people into treatment or housing or for debris clean up on
23 highway rights-of-way. A minimum of \$2,000,000 of this appropriation
24 must be used to deliver more frequent removal of litter on the
25 highway rights-of-way that is generated by unsheltered people and may
26 be used to hire crews specializing in collecting and disposing of
27 garbage, clearing debris or hazardous material, and implementing
28 safety improvements where hazards exist to the traveling public and
29 department employees. The department may use these funds to either
30 reimburse local law enforcement costs or the Washington state patrol
31 if they are providing enhanced safety to department staff during

34 (b) Beginning November 1, 2023, and semiannually thereafter, the
35 Washington state patrol and the department of transportation must
36 jointly submit a report to the governor and the transportation
37 committees of the legislature on the status of these efforts,
38 including:

1 (i) A summary of the activities related to addressing
2 encampments, including information on arrangements with local
3 governments or other entities related to these activities;

4 (ii) A description of the planned activities in the ensuing two
5 quarters to further address the emergency hazards and risks along

9 along state highway rights-of-way.

10 (4) \$1,000,000 of the motor vehicle account—state appropriation
11 is provided solely for a partnership program between the department
12 and the city of Spokane, to be administered in conjunction with
13 subsection (3) of this section. The program must address the safety
14 and public health problems created by homeless encampments on the
15 department's property along state highways within the city limits.
16 \$555,000 of the motor vehicle account—state appropriation is for
17 dedicated department maintenance staff and associated clean-up costs.
18 The department and the city of Spokane shall enter into a
19 reimbursable agreement to cover up to \$445,000 of the city's expenses
20 for clean-up crews and landfill costs.

21 (5) \$1,025,000 of the motor vehicle account—state appropriation
22 is provided solely for the department to implement safety
23 improvements and debris clean up on department-owned rights-of-way in
24 the city of Seattle at levels above that being implemented as of
25 January 1, 2019, to be administered in conjunction with subsection
26 (3) of this section. The department must maintain a crew dedicated
27 solely to collecting and disposing of garbage, clearing debris or
28 hazardous material, and implementing safety improvements where
29 hazards exist to the traveling public, department employees, or
30 people encamped upon department-owned rights-of-way. The department
31 may request assistance from the Washington state patrol as necessary
32 in order for both agencies to provide enhanced safety-related
33 activities regarding the emergency hazards along state highway
34 rights-of-way in the Seattle area.

35 (6) \$1,015,000 of the motor vehicle account—state appropriation
36 is provided solely for a partnership program between the department
37 and the city of Tacoma, to be administered in conjunction with
38 subsection (3) of this section. The program must address the safety
39 and public health problems created by homeless encampments on the

1 department's property along state highways within the city limits.
2 \$570,000 of the motor vehicle account—state appropriation is for
3 dedicated department maintenance staff and associated clean-up costs.

5 agreement to cover up to \$445,000 of the city's expenses for clean-up
6 crews and landfill costs.

7 (7) \$1,500,000 of the motor vehicle account—state appropriation

11 167/SR 509 Puget Sound Gateway project corridor in and adjacent to
12 the city limits pursuant to section 216(10), chapter 186, Laws of
13 2022. However, the amount provided in this subsection must be placed
14 in unallotted status and may not be spent prior to November 1, 2023.
15 If, after November 1, 2023, the department, in consultation with the
16 office of financial management, determines that the department fully
17 spent the \$2,000,000 appropriated in section 216(10), chapter 186,
18 Laws of 2022, within the 2021-2023 fiscal biennium for this purpose,
19 the amount provided in this subsection must remain in unallotted
20 status and unspent. If the department did not fully spend the
21 \$2,000,000 within the 2021-2023 fiscal biennium, the department may
22 only spend from the appropriation in this subsection an amount not in
23 excess of the amount unspent from the \$2,000,000 within the 2021-2023
24 fiscal biennium, with any remaining amount to remain in unallotted
25 status and unspent. In no event may the department spend more than
26 \$2,000,000 within the 2021-2023 and 2023-2025 fiscal biennia for this
27 purpose.

28 (8) To the greatest extent practicable, the department shall
29 schedule mowing along state highways to occur after litter pickup has
30 been performed in the area to be mowed. This subsection is not
31 intended to prevent mowing or other similar maintenance activities
32 from being undertaken in the event litter pickup has not been
33 performed.

17		<u>\$104,072,000</u>

18 The appropriations in this section are subject to the following
19 conditions and limitations:

20 (1) \$6,000,000 of the motor vehicle account—state appropriation
21 is provided solely for low-cost enhancements. The department shall
22 give priority to low-cost enhancement projects that improve safety or
23 provide congestion relief. By December 15th of each odd-numbered
24 year, the department shall provide a report to the legislature
25 listing all low-cost enhancement projects completed in the prior
26 fiscal biennium.

27 (2)(a) During the 2023-2025 fiscal biennium, the department shall
28 continue a pilot program that expands private transportation
29 providers' access to high occupancy vehicle lanes. Under the pilot
30 program, when the department reserves a portion of a highway based on
31 the number of passengers in a vehicle, the following vehicles must be
32 authorized to use the reserved portion of the highway if the vehicle
33 has the capacity to carry eight or more passengers, regardless of the
34 number of passengers in the vehicle: (i) Auto transportation company
35 vehicles regulated under chapter 81.68 RCW; (ii) passenger charter
36 carrier vehicles regulated under chapter 81.70 RCW, except marked or
37 unmarked stretch limousines and stretch sport utility vehicles as
38 defined under department of licensing rules; (iii) private nonprofit
39 transportation provider vehicles regulated under chapter 81.66 RCW;

1 and (iv) private employer transportation service vehicles. For
2 purposes of this subsection, "private employer transportation
3 service" means regularly scheduled, fixed-route transportation
4 service that is offered by an employer for the benefit of its
5 employees. Nothing in this subsection is intended to authorize the
6 conversion of public infrastructure to private, for-profit purposes
7 or to otherwise create an entitlement or other claim by private users
8 to public infrastructure.

9 (b) The department shall expand the high occupancy vehicle lane
10 access pilot program to vehicles that deliver or collect blood,
11 tissue, or blood components for a blood-collecting or distributing
12 establishment regulated under chapter 70.335 RCW. Under the pilot
13 program, when the department reserves a portion of a highway based on
14 the number of passengers in a vehicle, blood-collecting or
15 distributing establishment vehicles that are clearly and identifiably
16 marked as such on all sides of the vehicle are considered emergency
17 vehicles and must be authorized to use the reserved portion of the
18 highway.

19 (c) The department shall expand the high occupancy vehicle lane
20 access pilot program to for hire nonemergency medical transportation
21 vehicles, when in use for medical purposes, as described in section
22 208(20), chapter 472, Laws of 2023. Under the pilot program, when the
23 department reserves a portion of a highway based on the number of
24 passengers in a vehicle, nonemergency medical transportation vehicles
25 that meet the requirements identified in section 208(20), chapter
26 472, Laws of 2023 must be authorized to use the reserved portion of
27 the highway.

28 (d) Nothing in this subsection is intended to exempt these
29 vehicles from paying tolls when they do not meet the occupancy
30 requirements established by the department for express toll lanes.

31 (3) The appropriations in this section assume implementation of
32 additional cost recovery mechanisms to recoup at least \$100,000 in
33 credit card and other financial transaction costs related to the
34 collection of fees imposed under RCW 46.17.400, 46.44.090, and
35 46.44.0941 for driver and vehicle fee transactions beginning January
36 1, 2023. The department may recover transaction fees incurred through
37 credit card transactions.

38 (4) The department shall promote safety messages encouraging
39 drivers to slow down and move over and pay attention when emergency
40 lights are flashing on the side of the road and other suitable safety

1 messages on electronic message boards the department operates across
2 the state. The messages must be promoted through June 30, 2025. The
3 department may coordinate such messaging with any statewide public
4 awareness campaigns being developed by the department of licensing or
5 the Washington state traffic safety commission, or both.

6 (5) \$5,000,000 of the multimodal transportation account—state
7 appropriation is provided solely for the department to address

10 management. By December 15th of each odd-numbered year, the
11 department shall provide a report to the legislature listing all
12 emergent issues addressed in the prior fiscal biennium.

13 (6) \$3,529,000 of the highway safety account—state appropriation
14 is provided solely for implementation of chapter 17, Laws of 2023
15 (speed safety cameras).

16 (7) \$1,279,000 of the move ahead WA account—state appropriation

18 coordination center. The department is encouraged to apply for
19 federal grant funds for the virtual coordination center and may use
20 state funds as a match. By December 1, 2023, the department shall
21 report to the transportation committees of the legislature: (a)
22 Recommendations to expand the center's operations, including specific
23 additional jurisdictions and corridors across the state; and (b)
24 amounts received and dates of receipt of any new cash and in-kind
25 matches from virtual coordination center partners including, but not
26 limited to, the city of Seattle, King county, other state and local
27 jurisdictions, and private sector partners.

28 (8) \$100,000 of the motor vehicle account—state appropriation is
29 provided solely for the department to prepare and submit a report to
30 the transportation committees of the legislature by December 1, 2024,
31 with a prioritized list of recommendations for improving safety and
32 mobility on Interstate 90 between North Bend and Cle Elum during
33 winter weather events, including estimated costs. The recommendations
34 must include, but are not limited to, options to improve compliance
35 with traction tire and chain requirements and reduce snow-related
36 closures.

37 (9) (a) (~~(\$5,000,000)~~) \$3,100,000 of the motor vehicle account—
38 state appropriation is provided solely for the department, in
39 coordination with the independent review team of the joint

1 transportation committee, to conduct an analysis of highway, road,
2 and freight rail transportation needs, options, and impacts from
3 shifting the movement of freight and goods that currently move by
4 barge through the lower Snake river dams to highways, other roads,
5 and rail. The study should generate volume estimates and evaluate
6 scenarios for changes in infrastructure and operations that would be
7 necessary to address those additional volumes. The assessment must
8 include quantitative analysis based on available data in terms of
9 both financial and carbon emission costs; and qualitative input
10 gathered from tribal governments, local governments, freight
11 interests, and other key stakeholders, including impacts on
12 disadvantaged/underserved communities. The analysis must include a
13 robust public engagement process to solicit feedback from interested
14 stakeholders including but not limited to: Residents and officials in
15 affected cities and counties; stakeholders involved in railroad,
16 agriculture, fishing, trucking, shipping and other related
17 industries; appropriate Native American tribes; representatives of
18 advocacy and community organizations; and transportation, public
19 works, and economic development organizations in the affected areas,
20 federal highway administration and army corps of engineers. The
21 analysis must be informed by the work of the joint transportation
22 committee's independent review team, and must include the following:

23 (i) Existing volumes and traffic patterns;

24 (ii) Potential changes in volumes and traffic patterns
25 immediately following the loss of freight movement by barge and over
26 the following 20 years, including the carbon emissions impact of this
27 mode shift;

28 (iii) Identification of whether regional geography, land
29 availability, and state and federal regulatory processes would allow
30 for rail and road expansions and increased capacity;

31 (iv) Identification of potential infrastructure and operational
32 improvements to existing highways, other roads, and rail, including
33 additional access to facilities, needed to accommodate the higher
34 freight volumes and impacts and potential opportunities to mitigate
35 impacts on shipping rates;

36 (v) Identification of rail line development options, including
37 impacts and potential opportunities to mitigate impacts on grain
38 storage and handling facilities at regional unit train yards and port
39 export facilities;

1 (vi) An assessment of costs associated with mitigating potential
2 slope failure and stabilization necessitated by the drawdown of the
3 river. An assessment of impacts and potential opportunities to
4 mitigate impacts on adjacent roads, bridges, railroads, and utility
5 corridors shall be included;

6 (vii) Both financial and carbon cost estimates for development
7 and implementation of identified needs and options, including
8 planning, design, and construction;

9 (viii) Analysis of the impacts and potential opportunities to
10 mitigate impacts of these infrastructure changes on environmental
11 justice and disadvantaged/underserved communities during
12 construction, as well as from future operations;

13 (ix) Analysis of safety impacts and potential opportunities to
14 mitigate impacts for a shift from barge transportation to rail or
15 truck, including increases in rural community traffic and consistency
16 with the Washington State Strategic Highway Safety Plan: Target Zero;

17 (x) Impacts and potential opportunities to mitigate impacts on
18 highly affected commodities, including agriculture, petroleum,
19 project cargo, and wind energy components;

20 (xi) Analysis of the impacts and potential opportunities to
21 mitigate impacts that reduced competition resulting from removing
22 barging of agricultural products on the Snake river would have on
23 Washington's agricultural industry along with impacts modal shifts
24 would have on the entire supply chain, including export facilities
25 and ports on the Lower Columbia River; and

26 (xii) Determination of the feasibility that additional east-west
27 freight rail capacity can be achieved, particularly through Columbia
28 River Gorge, and the alternative routes that exist in the event that
29 adding more infrastructure on these routes is not feasible.

30 (b) The department shall provide status updates on a quarterly
31 basis in coordination with the joint transportation committee. The
32 legislature intends to require a final report to the governor and the
33 transportation committees of the legislature by December 31, 2026.

38 install and implement wrong-way driving prevention strategies. Such
39 prevention strategies may include improved signage and pavement
40 markings as recommended by the traffic safety commission's report on

1 wrong-way driving, "Strategies and Technologies to Prevent and
2 Respond to Wrong-Way Driving Crashes." The department must report to
3 the legislature any crash data or wrong-way violations that occur at

6 is provided solely for the department to develop an automated highway
7 speed safety camera pilot program to test two to three automated
8 traffic safety cameras on state highways. The goals of the automated
9 highway speed safety camera pilot program are to test speed camera
10 technology, determine the impact on speeding behavior in areas of
11 testing, and compile public response to the use of traffic safety
12 cameras on highways.

13 (a) The department must work with the Washington state patrol and
14 the traffic safety commission to develop the pilot program to
15 include, but not be limited to, the following program elements:

16 (i) Selection of technology;

17 (ii) Placement of cameras in high speed, collision, or fatality
18 locations;

19 (iii) Establishment of public notification and warning signs
20 prior to entering into an area with a speed safety camera;

21 (iv) Outreach and public engagement about the program and site
22 selection process; and

23 (v) Development and implementation of a process to collect and
24 report relevant pilot program data, including rates of speed prior
25 to, during, and after the use of pilot program cameras, and public
26 response to pilot program cameras.

27 (b) Automated traffic safety cameras may only take pictures of
28 the vehicle and the vehicle license plates.

30 captured by automated traffic safety cameras authorized under the
31 pilot program is prohibited during the pilot program.

32 (d) As part of the pilot program, the department may inform
33 registered vehicle owners of a vehicle's rate of speed exceeding the
34 posted speed limit and the amount of the fine the law would have
35 allowed to be imposed by providing notification by mail.

36 (e) The department is required to provide a program progress
37 report to the governor and transportation committees of the
38 legislature by (~~September 30, 2024~~) June 30, 2025, to include a

30 The appropriations in this section are subject to the following
31 conditions and limitations:

32 (1) \$4,025,000 of the motor vehicle account—state appropriation
33 is provided solely for payments of a financing contract issued
34 pursuant to chapter 39.94 RCW for the department facility located at

15 limited to, the following criteria: (i) Employee safety and facility
16 security; (ii) state and federal regulatory and statutory
17 requirements and compliance issues, including clean buildings
18 requirements; (iii) quality of work issues; (iv) facility condition
19 assessment evaluations and scoring; (v) asset preservation; and (vi)

27 on the prioritization of facility preservation needs and repair
28 projects developed pursuant to (a) of this subsection to the office
29 of financial management and the transportation committees of the
30 legislature. The report must include: (i) A by facility ranking based
31 on the criteria implemented; (ii) detailed information on the actions
32 taken in the previous period to address the identified issues and
33 deficiencies; and (iii) the plan, by facility, to address issues and
34 deficiencies for the remainder of the 2023-2025 fiscal biennium and
35 the 2025-2027 fiscal biennium.

36 (c) The by facility ranking developed under (b) of this
37 subsection must be the basis of an agency budget submittal for the
38 2025-2027 fiscal biennium.

39 (3) (a) \$1,200,000 of the multimodal transportation account—state
40 appropriation is provided solely for the department to evaluate

1 safety rest areas along Interstate 5 and Interstate 90 for potential
2 truck parking expansion opportunities. The department shall also
3 evaluate commercial vehicle inspection locations, in coordination
4 with the Washington state patrol, for potential truck parking
5 expansion opportunities.

6 (b) These evaluations must include assessments of opportunities
7 to provide additional truck parking through rest stop and inspection
8 location reconfiguration, expansion, and conversion, as well as
9 evaluation of potential improvements to restroom facilities at weigh
10 stations with truck parking. The department shall consider
11 opportunities to expand rest stop footprints onto additional
12 department-owned property, as well as opportunities to acquire
13 property for rest stop expansion. Opportunities to convert a rest
14 stop to a commercial vehicle-only rest stop must be considered if
15 property is available to develop a new light-duty vehicle rest stop

21 conversion, as well as other recommendations for the development of
22 these sites.

23 (c) The department should consult with the federal highway
24 administration, the Washington state patrol, the Washington trucking
25 association, the freight mobility strategic investment board, and
26 local communities.

27 (d) The department must update the transportation committees of
28 the legislature on agency activities and their status by December 1,
29 2023, and to provide a final report to the transportation committees

1 its agency budget submittal for the 2025-2027 fiscal biennium
2 utilizing form C-100 for capital projects. The design information
3 must also include detailed information on square footage, components
4 of the facility, and cost comparisons with similar maintenance
5 facilities.

6 (b) By September 1, 2024, the office of financial management, in
7 consultation with the department, must develop criteria for
8 preservation and improvement minor works lists for the department's
9 facilities program. The criteria must incorporate, adjusted where
10 appropriate, provisions already in use in the omnibus capital budget
11 act for minor works, including: (i) The dollar limitation for each
12 project to be included in the list; (ii) the types of projects
13 appropriate to be included in the list; (iii) the project length
14 limitation appropriate to be included in the list; and (iv) a
15 recommended initial allotment, revision request approval, and
16 revision notification process associated with the list. The criteria
17 must be the basis of the preservation and improvement minor works
18 list included in the agency budget submittal beginning with the
19 2025-2027 fiscal biennium.

20 (c) By September 1, 2024, the office of financial management, in
21 consultation with the department, must also develop criteria for
22 providing building related capital requests in a comparable format,
23 adjusted where appropriate, to provisions already in use in the
24 omnibus capital appropriations act for building projects, including
25 the C-100 capital request form and other detail requirements for
26 omnibus capital appropriations act building submissions.

36 (d) The office of financial management must provide notice of
37 appropriation modifications authorized under this subsection within
38 10 working days to the transportation committees of the legislature.
39 By December 1, 2023, and December 1, 2024, the department must submit

1 a report to the transportation committees of the legislature
2 regarding the actions taken to date under this subsection.

3 (8) The department shall itemize all future requests for the
4 construction of buildings on a project list and submit them through
5 the transportation executive information system as part of the
6 department's annual budget submittal. It is the intent of the
7 legislature that new facility construction must be transparent and
8 not appropriated within larger highway construction projects.

9 (9) The legislature continues to prioritize the replacement of
10 the state's aging infrastructure and recognizes the importance of
11 reusing and recycling construction aggregate and recycled concrete
12 materials in our transportation system. To accomplish Washington
13 state's sustainability goals in transportation and in accordance with
14 RCW 70A.205.700, the legislature reaffirms its determination that
15 recycled concrete aggregate and other transportation building
16 materials are natural resource construction materials that are too
17 valuable to be wasted and landfilled, and are a commodity as defined
18 in WAC 173-350-100.

19 (10) By June 30, 2025, to the extent practicable, the department
20 shall decommission the facilities for the Lacey project engineering
21 office and the Tumwater project engineering office at the end of
22 their lease terms and consolidate the Lacey project engineering
23 office and the Tumwater project engineering office into the
24 department's Olympic regional headquarters.

25 (11) The legislature intends that any savings realized on the
26 following projects will not be attributable to the application of
27 practical design, retired risk, or unused contingency funding for the
28 purposes of RCW 47.01.480:

29 (a) I-5/Marvin Road/SR 510 Interchange (L1100110); and

30 (b) I-82/EB WB On and Off Ramps (L2000123).

31 (12)(a) \$337,114,000 of the coronavirus state fiscal recovery
32 fund—federal appropriation, \$110,439,000 of the motor vehicle account
33 —federal appropriation, \$576,827,000 of the move ahead WA account—
34 state appropriation, and \$8,329,000 of the motor vehicle account—
35 state appropriation are provided solely for the Fish Passage Barrier
36 Removal project (0BI4001) with the intent of fully complying with the
37 federal *U.S. v. Washington* court injunction by 2030.

38 (b) The fish passage barrier removal program, in consultation
39 with the office of innovative partnerships, shall explore

1 opportunities to employ innovative delivery methods to ensure
2 compliance with the court injunction including, but not limited to,
3 public-private partnerships and batched contracts. It is the intent
4 of the legislature that appropriations for this purpose may be used
5 to jointly leverage state and local funds for match requirements in
6 applying for competitive federal aid grants provided in the
7 infrastructure investment and jobs act for removals of fish passage
8 barriers under the national culvert removal, replacement, and
9 restoration program. State funds used for the purpose described in
10 this subsection must not compromise full compliance with the court
11 injunction by 2030.

12 (c) The department shall coordinate with the Brian Abbott fish
13 passage barrier removal board to use a watershed approach by
14 replacing both state and local culverts guided by the principle of
15 providing the greatest fish habitat gain at the earliest time. The
16 department shall deliver high habitat value fish passage barrier
17 corrections that it has identified, guided by the following factors:
18 Opportunity to bundle projects, tribal priorities, ability to
19 leverage investments by others, presence of other barriers, project
20 readiness, culvert conditions, other transportation projects in the
21 area, and transportation impacts. The department and Brian Abbott
22 fish barrier removal board must provide updates on the implementation
23 of the statewide culvert remediation plan to the legislature by
24 November 1, 2023, and June 1, 2024.

25 (d) The department must keep track of, for each barrier removed:
26 (i) The location; (ii) the amount of fish habitat gain; and (iii) the
27 amount spent to comply with the injunction.

28 (e) During the 2023-2025 fiscal biennium, the department shall
29 provide reports of the amounts of federal funding received for this
30 project to the governor and transportation committees of the
31 legislature by November 1, 2023, and semiannually thereafter.

32 (13)(a) \$15,000,000 of the model toxics control stormwater
33 account—state appropriation is provided solely for the Stormwater
34 Retrofits and Improvements project (L4000040). It is the intent of
35 the legislature, over the 16-year move ahead WA investment program,
36 to provide \$500,000,000 for this program.

37 (b) Of the amounts provided in this subsection, \$6,000,000 is
38 provided solely for the Urban Stormwater Partnership - I-5 Ship-Canal
39 Bridge Pilot (Seattle) project.

1 (c) The funding provided for stormwater retrofits and
2 improvements must enhance stormwater runoff treatment from existing
3 roads and infrastructure with an emphasis on green infrastructure
4 retrofits. Projects must be prioritized based on benefits to salmon
5 recovery and ecosystem health, reducing toxic pollution, addressing
6 health disparities, and cost-effectiveness. The department of
7 transportation must submit progress reports on its efforts to reduce
8 the toxicity of stormwater runoff from existing infrastructure,
9 recommendations for addressing barriers to innovative solutions, and
10 anticipated demand for funding each fiscal biennium.

11 (14) (a) (~~(\$25,067,000)~~) \$12,011,000 of the connecting Washington
12 account—state appropriation is provided solely for the SR 3 Freight
13 Corridor (T30400R) project. The legislature intends to provide a
14 total of \$78,910,000 for this project, including an increase of
15 \$12,000,000 in future biennia to safeguard against inflation and
16 supply/labor interruptions and ensure that:

17 (i) The northern terminus remains at Lake Flora Road and the
18 southern terminus at the intersection of SR 3/SR 302; and

19 (ii) Multimodal safety improvements at the southern terminus
20 remain in the project to provide connections to North Mason school
21 district and provide safe routes to schools.

22 (b) With respect to right-of-way acquisition and the construction
23 of the SR 3 Freight Corridor project (T30400R), tribal consultation
24 with the Suquamish tribe shall begin at the earliest stage of
25 planning, including without limitation on all funding decisions and
26 funding programs, to provide a government-to-government mechanism for
27 the tribe to evaluate, identify, and expressly notify governmental
28 entities of any potential impacts to tribal cultural resources,
29 archaeological sites, sacred sites, fisheries, or other rights and
30 interests in tribal lands and lands within which the tribe possesses
31 rights reserved or protected by federal treaty, statute, or executive
32 order. The consultation is independent of, and in addition to, any
33 public participation process required under state law, or by a state
34 agency, including the requirements of Executive Order 21-02 related
35 to archaeological and cultural resources, and regardless of whether
36 the agency receives a request for consultation from the Suquamish
37 tribe. Regularly scheduled tribal consultation meetings with the
38 Suquamish tribe shall continue throughout the duration of any funding
39 or program decisions and proposed project approval.

1 (15) (~~(\$6,000,000)~~) \$384,000 of the move ahead WA account—state
2 appropriation and (~~(\$10,000,000)~~) \$3,342,000 of the move ahead WA
3 account—federal appropriation are provided solely for the SR 3/Gorst
4 Area - Widening project (L4000017). Tribal consultation with the
5 Suquamish tribe must begin at the earliest stage of planning,
6 including, without limitation, all funding decisions and funding
7 programs, to provide a government-to-government mechanism for the
8 tribe to evaluate, identify, and expressly notify governmental
9 entities of any potential impacts to tribal cultural resources,
10 archaeological sites, sacred sites, fisheries, or other rights and
11 interests in tribal lands and lands within which the tribe possesses
12 rights reserved or protected by federal treaty, statute, or executive
13 order. The consultation is independent of, and in addition to, any
14 public participation process required under state law, or by a state
15 agency, including the requirements of Executive Order 21-02 related
16 to archaeological and cultural resources, and regardless of whether
17 the agency receives a request for consultation from the Suquamish
18 tribe. Regularly scheduled tribal consultation meetings with the
19 Suquamish tribe must continue throughout the duration of any funding
20 program and proposed project approval.

21 (16) (a) \$94,500,000 of the move ahead WA account—federal
22 appropriation, \$137,500,000 of the move ahead WA account—private/
23 local appropriation, and \$43,000,000 of the move ahead WA account—
24 state appropriation are provided solely for the I-5 Columbia river
25 bridge project (L4000054). The legislature finds that the replacement
26 of the I-5 Columbia river bridge is a project of national
27 significance and is critical for the movement of freight. One span is
28 now 105 years old, at risk for collapse in the event of a major
29 earthquake, and no longer satisfies the needs of commerce and travel.
30 Replacing the aging interstate bridge with a modern, seismically
31 resilient, multimodal structure that provides improved mobility for
32 people, goods, and services is a high priority. Therefore, the
33 legislature intends to support the replacement of the I-5 Columbia
34 river bridge with an investment of \$1,000,000,000 over the 16-year
35 move ahead WA investment program.

36 (b) The legislature recognizes the importance of the I-5/Mill
37 Plain Boulevard project (L2000099) and intends to provide funding for
38 reconstruction of the existing interchange in coordination with
39 construction of the Interstate 5 bridge over the Columbia river.

1 (c) The department shall provide regular updates on the status of
2 ongoing coordination with the state of Oregon on any bistate
3 agreements regarding sharing of revenues, use of revenues, and fiscal
4 responsibilities of each state. Prior to finalizing any such
5 agreement, the department shall provide a draft of the agreement to
6 the transportation committees of the legislature for review and
7 input. Additionally, the department shall advise on the status of any
8 bistate agreements to the joint transportation committee beginning in
9 September 2023 and quarterly thereafter until any agreements are
10 finalized.

11 (17) The legislature recognizes the importance of the US-12/Walla
12 Walla Corridor Improvements project (T20900R) and intends to advance
13 funding to provide matching funds if competitive federal funding is
14 awarded for the final remaining four-lane section between Wallula and
15 Nine Mile Hill. The department, in consultation with local
16 governments in the vicinity, must pursue any federal funding
17 available.

18 (18) (~~(\$2,642,000)~~) \$94,000 of the move ahead WA account—state
19 appropriation is provided solely for the US 101/Simdars Bypass
20 project (L4000013).

21 (19) (~~(\$338,512,000)~~) \$369,399,000 of the connecting Washington
22 account—state appropriation, (~~(\$3,109,000)~~) \$1,582,000 of the
23 multimodal transportation account—state appropriation,
24 (~~(\$27,201,000)~~) \$26,949,000 of the motor vehicle account—private/
25 local appropriation, (~~(\$178,543,000)~~) \$195,929,000 of the move ahead
26 WA account—federal appropriation, \$36,370,000 of the move ahead WA
27 account—state appropriation, and (~~(\$211,131,000)~~) \$168,013,000 of the
28 motor vehicle account—federal appropriation are provided solely for
29 the SR 167/SR 509 Puget Sound Gateway project (M00600R).

30 (a) Any savings on the project must stay on the Puget Sound
31 Gateway corridor until the project is complete.

32 (b) In making budget allocations to the Puget Sound Gateway
33 project, the department shall implement the project's construction as
34 a single corridor investment. The department shall continue to
35 collaborate with the affected stakeholders as it implements the
36 corridor construction and implementation plan for state route number
37 167 and state route number 509. Specific funding allocations must be
38 based on where and when specific project segments are ready for
39 construction to move forward and investments can be best optimized

1 for timely project completion. Emphasis must be placed on avoiding
2 gaps in fund expenditures for either project.

3 (c) The entire multimodal transportation account—state
4 appropriation in this subsection is for:

5 (i) The design phase of the Puyallup to Tacoma multiuse trail
6 along the state route number 167 right-of-way acquired for the
7 project to connect a network of new and existing trails from Mount
8 Rainier to Point Defiance Park; and

9 (ii) Segment 2 of the state route number 167 completion project
10 shared-use path to provide connections to the interchange of state
11 route number 167 at 54th to the intersection of state route number
12 509 and Taylor Way in Tacoma.

13 (20) \$2,213,000 of the motor vehicle account—state appropriation
14 and \$14,012,000 of the connecting Washington account—state
15 appropriation are provided solely for the SR 224/Red Mountain
16 Vicinity Improvement project (L1000291). The department shall provide
17 funding to the city of West Richland to complete the project within
18 the project scope identified by the legislature and within the total
19 amount provided by the legislature. The department shall not amend
20 the project's scope of work to add pavement preservation on state
21 route number 224 from the West Richland city limits to Antinori Road.

22 (21) (~~(\$409,667,000)~~) \$348,020,000 of the connecting Washington
23 account—state appropriation, (~~(\$500,000 of the state route number 520~~
24 ~~corridor account state appropriation,)~~) \$10,000,000 of the state
25 route number 520 civil penalties account—state appropriation,
26 \$52,000,000 of the JUDY transportation future funding program account
27 —state appropriation, and \$5,592,000 of the motor vehicle account—
28 private/local appropriation are provided solely for the SR 520
29 Seattle Corridor Improvements - West End project (M00400R) and are
30 subject to the following conditions and limitations:

31 (a) The department shall immediately proceed with awarding the
32 bid for the Portage Bay Bridge and Roanoke Lid project to the team
33 that submitted the proposal with the apparent best value in September
34 2023. Consistent with negotiated timelines, the legislature expects
35 the award to be made by March 15, 2024, and assumes that the
36 department shall expedite executing the contract with the awarded
37 team. Once the contract is executed for this project, the department
38 shall seek consequential cost reduction opportunities through value
39 engineering and prioritizing functionality and usability of the

1 Portage Bay Bridge and Roanoke Lid. The department shall report on
2 the status of the project and cost reduction efforts to the
3 transportation committees of the legislature by December 15, 2024.

4 (b) Upon completion of the Montlake Phase of the West End
5 project, the department shall sell or transfer that portion of the
6 property not necessary for transportation purposes, and shall
7 initiate a process to convey or transfer such portion of the surplus
8 property to a subsequent owner.

9 (c) Of the amounts provided in this subsection, \$500,000 of the
10 state route number 520 corridor account—state appropriation is
11 provided solely for noise mitigation activities. It is the intent of
12 the legislature to provide an additional \$600,000 for noise
13 mitigation activities.

14 (d) Pursuant to chapter 281, Laws of 2024, the department shall
15 apply for a sales tax deferral for construction work on the SR 520
16 Seattle Corridor Improvements - West End project (M00400R).

17 (22) (~~(\$450,000)~~) \$391,000 of the motor vehicle account—state
18 appropriation is provided solely for the SR 900 Safety Improvements
19 project (L2021118). The department must: (a) Work in collaboration
20 with King county and the Skyway coalition to align community assets,

22 improvements along state route number 900; and (b) work with the
23 Skyway coalition to lead community planning engagement and active
24 transportation activities.

25 (23) (~~(\$7,500,000)~~) \$1,750,000 of the motor vehicle account—
26 federal appropriation is provided solely for a federal fund exchange
27 pilot program. The pilot program must allow exchanges of federal
28 surface transportation block grant population funding and state funds
29 at an exchange rate of 95 cents in state funds per \$1.00 in federal
30 funds. The projects receiving the exchanged federal funds must adhere
31 to all federal requirements, including the applicable disadvantaged
32 business enterprise goals. The entirety of the appropriation in this
33 subsection must be held in unallotted status until surface
34 transportation block grant population funding has been offered to the
35 state, and the department determines that a federalized project or
36 projects funded in this section is eligible to spend the surface
37 transportation block grant population funding. (~~(\$7,125,000)~~)
38 \$1,662,500 from existing state appropriations identified elsewhere
39 within this section are available to be used as part of the exchange.

1 Upon determination that a project or projects funded in this section
2 is eligible to spend the offered surface transportation block grant
3 population funding, state funds appropriated in this section for the
4 eligible state project or projects in an amount equal to 100 percent
5 of the offered surface transportation block grant population funding
6 must be placed in unallotted status. The legislature intends to
7 evaluate the utility and efficacy of the pilot program in the 2025
8 legislative session while reappropriating any remaining funds into
9 the 2025-2027 fiscal biennium. Therefore, the department may issue
10 additional calls for projects with any remaining funds provided in
11 this subsection.

12 (24) (~~(\$9,593,000)~~) \$9,195,000 of the motor vehicle account—state
13 appropriation (~~(, \$552,000 of the connecting Washington account—state~~
14 ~~appropriation,)~~) and (~~(\$209,000)~~) \$584,000 of the move ahead WA
15 account—state appropriation are provided solely for the SR 522/
16 Paradise Lk Rd Interchange & Widening on SR 522 (Design/Engineering)
17 project (NPARADI), specifically for design of, preliminary
18 engineering, and right-of-way acquisition for the interchange and
19 widening as a single project. The department must consider reserving
20 portions of state route number 522, including designated lanes or
21 ramps, for the exclusive or preferential use of public transportation
22 vehicles, privately owned buses, motorcycles, private motor vehicles
23 carrying not less than a specified number of passengers, or private
24 transportation provider vehicles pursuant to RCW 47.52.025.

25 (25) Prior to initiating new advertisements or requests for
26 qualifications for the following projects: SR 9/Marsh Road to 2nd
27 Street Vicinity (N00900R), SR 526 Corridor Improvements (N52600R), US
28 395 North Spokane Corridor (M00800R), and SR 18 - Widening -
29 Issaquah/Hobart Rd to Raging River - Phase 1 (L1000199), the capital
30 projects advisory review board shall review the planned procurement
31 methods for these projects. The board shall provide recommendations
32 on procurement methods to the office of financial management, the
33 department, and the transportation committees of the legislature for
34 project L1000199 by July 1, 2024, and projects N52600R, N00900R, and
35 M00800R by December 1, 2024. After the board provides
36 recommendations, the department may initiate new advertisements and
37 requests for qualifications, incorporating the recommendations as
38 appropriate.

1 The department shall structure the advertisements, requests for
2 qualifications, and requests for proposals, for projects referenced
3 in this subsection, in a manner that provides a high degree of
4 certainty that bids come in as expected according to engineer
5 estimates made through the cost estimate valuation process. The
6 department may request bid offers with alternatives for components of
7 a larger project so that the department may present to the
8 legislature modified options for projects to minimize project delays
9 and stay within appropriated funding resources. If alternatives
10 provided are at or below the engineer estimates, the department may
11 proceed with the project award.

12 If bid proposals exceed engineer estimates by more than five
13 percent or \$10,000,000, the department shall report this information
14 to the transportation committees of the legislature within two weeks
15 of receiving the bid proposals, and pause award and contract
16 execution.

27 environmental assessment work, community engagement, design, and
28 project cost estimation.

29 (29) \$1,000,000 of the multimodal transportation account—state
30 appropriation is provided solely for matching funds for the
31 department to apply to the federal highway administration's wildlife
32 crossings pilot program, in the 2024 grant application cycle, for
33 wildlife crossing underpasses on U.S. 97 between Tonasket and
34 Riverside.

35 (30) (~~(\$1,800,000)~~) \$1,720,000 of the multimodal transportation
36 account—state appropriation and (~~(\$12,287,000)~~) \$480,000 of the
37 multimodal transportation account—federal appropriation are provided
38 solely for the department to develop and implement a technology-based
39 truck parking availability system along the Interstate 5 corridor in

1 partnership with Oregon state and California state to maximize
2 utilization of existing truck parking capacity and deliver real-time
3 parking availability information to truck drivers (L1000375). The
4 department may use a portion of the appropriation in this subsection
5 for grant proposal development and as state match funding for
6 technology-based truck parking availability system federal grant
7 applications. The department must update the transportation
8 committees of the legislature on agency activities and their status
9 by December 1, 2023, and provide a final report to the transportation

16 2025-2027 fiscal biennium for additional truck parking improvements
17 (L1000376). As part of the department's 2025-2027 budget submittal,
18 the department and the freight mobility strategic investment board,
19 after consulting with appropriate entities, must provide a list of
20 specific truck parking solutions within the amounts provided in this
21 subsection (32). The list may also include additional funding
22 recommendations beyond this amount for more immediate expansion of
23 truck parking capacity, as well as for long-term expansion of truck
24 parking capacity.

25 (33) \$250,000 of the carbon emissions reduction account—state
26 appropriation is provided solely for the State Route 547 Pedestrian

14 appropriate next steps for the state and the local jurisdiction to
15 improve traffic safety for active transportation users in such
16 intersections. The department must report such findings and
17 recommendations to the transportation committees of the legislature
18 by December 1, 2024.

19 (16) (a) (i) (~~(\$5,000,000)~~) \$5,432,000 of the carbon emissions

17 only to the extent to inform its report described under (d) of this
18 subsection.

19 (v) A qualifying retailer must register with the department
20 before participating in the rebate program. A qualifying retailer

39 under this subsection.

1 (b) For fiscal year 2025, (~~(\$2,000,000)~~) \$432,000 of the carbon
2 emissions reduction account—state appropriation is provided solely
3 for the department to establish an e-bike lending library and
4 ownership grant program. The department may accept grant applications
5 from other state entities, local governments, and tribes that
6 administer or plan to administer an e-bike lending library or
7 ownership program for their employees for commute trip reduction
8 purposes. The department may also accept grant applications from
9 nonprofit organizations or tribal governments that serve persons who
10 are low-income or reside in overburdened communities and that
11 administer or plan to administer an e-bike lending library or
12 ownership program for qualifying persons. Grant recipients must
13 report program information and participation data to the University
14 of Washington to inform its report described under (d) of this
15 subsection.

16 (c) It is the intent of the legislature that funding provided in
17 (a) and (b) of this subsection continue to be appropriated in the
18 2025-2027 and 2027-2029 fiscal biennia.

19 (d) Of the amounts provided in this subsection (16), \$90,000 is
20 for the department to contract with the University of Washington's
21 sustainable transportation lab to publish a general policy brief that
22 provides innovative e-bike rebate and lending library or ownership
23 grant program models and recommendations, a report on survey results

8 account—state appropriation is provided solely for the Aberdeen US 12
9 Highway-Rail Separation project (L1000331).

10 (20) The appropriations in this section include savings due to
11 anticipated project underruns; however, it is unknown which projects
12 will provide savings. The legislature intends to provide sufficient
13 flexibility for the department to manage to this savings target. To
14 provide this flexibility, the office of financial management may
15 authorize, through an appropriation modification, reductions in the
16 amounts that are provided solely for a particular purpose within this
17 section subject to the following conditions and limitations:

3 follows:

4 **MANAGEMENT OF TRANSPORTATION FUNDS WHEN THE LEGISLATURE IS NOT IN**
5 **SESSION**

6 (1) The 2005 transportation partnership projects or improvements,
7 2015 connecting Washington projects or improvements, and move ahead
8 WA projects or improvements are listed in the (~~LEAP Transportation~~
9 ~~Document 2024-1 as developed March 6, 2024~~) OFM Transportation
10 Document 2025-1: Proposed Transportation Project List as developed
11 December 17, 2024, which consists of a list of specific projects by
12 fund source and amount over multiple biennia. Current fiscal biennium
13 funding for each project is a line-item appropriation, while the
14 outer year funding allocations represent a 16-year plan. The
15 department of transportation is expected to use the flexibility
16 provided in this section to assist in the delivery and completion of
17 all transportation partnership account, connecting Washington
18 account, and move ahead WA account projects on the (~~LEAP~~) OFM
19 transportation document referenced in this subsection. For the
20 2023-2025 project appropriations, unless otherwise provided in this
21 act, the director of the office of financial management may provide
22 written authorization for a transfer of appropriation authority
23 between projects funded with transportation partnership account
24 appropriations, connecting Washington account appropriations, or move
25 ahead WA account appropriations to manage project spending and
26 efficiently deliver all projects in the respective program under the
27 following conditions and limitations:

28 (a) Transfers may only be made within each specific fund source
29 referenced on the respective project list;

30 (b) Transfers from a project may not be made as a result of the
31 reduction of the scope of a project or be made to support increases
32 in the scope of a project;

33 (c) Transfers from a project may be made if the funds
34 appropriated to the project are in excess of the amount needed in the
35 current fiscal biennium;

36 (d) Transfers may not occur for projects not identified on the
37 applicable project list;

38 (e) Transfers to a project may not occur if that project is a
39 programmatic funding item described in broad general terms on the

1 applicable project list without referencing a specific state route
2 number;

3 (f) Transfers may not be made while the legislature is in
4 session;

5 (g) Transfers to a project may not be made with funds designated
6 as attributable to practical design savings as described in RCW
7 47.01.480;

8 (h) The total amount of transfers under this section may not
9 exceed \$50,000,000;

10 (i) Except as otherwise provided in (k) of this subsection,
11 transfers made to a single project may not cumulatively total more
12 than \$20,000,000 per fiscal biennium;

13 (j) Each transfer between projects may only occur if the director
14 of the office of financial management finds that any resulting change
15 will not hinder the completion of the projects as approved by the
16 legislature; and

17 (k) Transfers between projects may be made by the department of
18 transportation without the formal written approval provided under
19 this subsection (1)(k), provided that the transfer amount to a single
20 project does not exceed \$250,000 or 10 percent of the total project
21 per fiscal biennium, whichever is less. These transfers must be
22 reported quarterly to the director of the office of financial
23 management and the chairs of the house of representatives and senate
24 transportation committees.

25 (2) The department of transportation must submit quarterly all
26 transfers authorized under this section in the transportation
27 executive information system. The office of financial management must
28 maintain a legislative baseline project list identified in the LEAP
29 transportation documents referenced in this act, and update that
30 project list with all authorized transfers under this section,
31 including any effects to the total project budgets and schedules
32 beyond the current fiscal biennium.

33 (3) At the time the department submits a request to transfer
34 funds under this section, a copy of the request must be submitted to
35 the chairs and ranking members of the transportation committees of
36 the legislature.

37 (4) Before approval, the office of financial management shall
38 work with legislative staff of the house of representatives and
39 senate transportation committees to review the requested transfers in

1 a timely manner and address any concerns raised by the chairs and
2 ranking members of the transportation committees.

3 (5) No fewer than 10 days after the receipt of a project transfer
4 request, the director of the office of financial management must
5 provide written notification to the department of any decision
6 regarding project transfers, with copies submitted to the
7 transportation committees of the legislature.

8 (6) The department must submit annually as part of its budget
9 submittal a report detailing all transfers made pursuant to this
10 section, including any effects to the total project budgets and
11 schedules beyond the current fiscal biennium.

12 **Sec. 502.** 2024 c 310 s 502 (uncodified) is amended to read as

18 programs I, P, and Z identified in (~~LEAP Transportation Document~~
19 ~~2024-2 ALL PROJECTS as developed March 6, 2024~~) OFM Transportation
20 Document 2025-1: Proposed Transportation Project List as developed
21 December 17, 2024, in a manner consistent with past practices as
22 specified in section 602, chapter 186, Laws of 2022.

23 **Sec. 503.** 2024 c 310 s 503 (uncodified) is amended to read as
24 follows:

25 **LOCAL PARTNER COOPERATIVE AGREEMENTS**

26 (1) If a transportation project, where the Washington state
27 department of transportation is the lead and the project is scheduled
28 to be delivered or completed in the 2023-2025 fiscal biennium as
29 shown on the (~~LEAP Transportation Document 2024-2 ALL PROJECTS as~~
30 ~~developed March 6, 2024~~) OFM Transportation Document 2025-1:
31 Proposed Transportation Project List as developed December 17, 2024,
32 is in jeopardy of being delayed because the department is unable to
33 deliver or complete the project within the 2023-2025 fiscal biennium
34 and other local jurisdictions are able to deliver or complete the
35 work, the department must coordinate with the appropriate local
36 jurisdictions to determine if a potential local partner is ready,
37 willing, and able to execute delivery and completion of the project
38 within the 2023-2025 fiscal biennium.

1 (2) The department must compile a list of projects under this
2 section, including the timing under which the local partner agency
3 can deliver or complete the projects within the 2023-2025 and
4 2025-2027 fiscal biennia. The department must submit the compiled
5 list of projects to the governor and the transportation committees of
6 the legislature by November 1, 2023.

MISCELLANEOUS 2023-2025 FISCAL BIENNIUM

Sec. 601. RCW 46.68.510 and 2024 c 310 s 605 are each amended to read as follows:

The move ahead WA account is created in the motor vehicle fund. Moneys in the account may be spent only after appropriation. Expenditures from the account must be used only for projects or improvements identified as move ahead WA projects or improvements in an omnibus transportation appropriations act, including any principal and interest on bonds authorized for the projects or improvements. During the 2023-2025 fiscal biennium, the legislature may direct the state treasurer to make transfers of moneys from the move ahead WA account to the motor vehicle fund and the transportation 2003 account (nickel account).

Sec. 602. RCW 43.43.386 and 2024 c 237 s 2 are each amended to read as follows:

(1) Beginning July 1, 2024, an eligible commissioned employee completing 26 or more years of service shall qualify for an annual state trooper longevity bonus of \$15,000 on the employee's anniversary date of state employment, which shall be paid in four equal quarterly payments. However, during the 2023-2025 fiscal biennium, an eligible commissioned employee who completed 26 or more years of service prior to July 1, 2024, shall receive payment on the first paydate following the effective date of this section of any amount of the longevity bonus that would have been paid to the eligible commissioned employee as of the effective date of this section had quarterly payments begun on July 1, 2024.

(2) The establishment of the state trooper longevity bonus is subject to a change to the applicable collective bargaining agreements negotiated with the exclusive bargaining representatives.

(3) This section does not interfere with, impede, or in any way diminish the right of the officers of the Washington state patrol to bargain collectively with the state through the exclusive bargaining representatives as provided for in RCW 41.56.473.

(4) The state patrol longevity bonus created in this section is a time-limited incentive targeted at retaining senior personnel and is not intended to be included in salary or average final salary for calculation of pension benefits in this chapter.

1 (5) The benefits provided pursuant to chapter 237, Laws of 2024
2 are not provided to employees as a matter of contractual right. The
3 legislature retains the right to alter or abolish these benefits at
4 any time.

5 (6) Beginning July 15, 2024, and every three months thereafter,
6 the Washington state patrol must submit a report showing the average
7 filled positions in field force trooper positions in comparison to
8 the 683 total authorized field force trooper positions in the prior
9 fiscal quarter. The quarterly reports detailed must be submitted to
10 the office of financial management and the transportation committees
11 of the legislature. The authorized field force trooper level as the
12 basis for this comparison may be adjusted as specified in the omnibus
13 transportation appropriations act.

14 (7) For the purposes of this section, "eligible commissioned
15 employee" means a Washington state patrol employee with 26 or more
16 years of service in the Washington state patrol retirement system.

17 (8) This section expires June 30, 2029.

(End of part)

MISCELLANEOUS

NEW SECTION. **Sec. 701.** A new section is added to 2024 c 310 (uncodified) to read as follows:

The appropriations to the department of transportation in chapter 472, Laws of 2023, chapter 310, Laws of 2024, and this act must be expended for the programs and in the amounts specified in chapter 472, Laws of 2023, chapter 310, Laws of 2024, and this act. However, after May 1, 2025, unless specifically prohibited, the department may transfer state appropriations for the 2023-2025 fiscal biennium among operating programs after approval by the director of the office of financial management. However, the department shall not transfer state moneys that are provided solely for a specific purpose. The department shall not transfer funds, and the director of the office of financial management shall not approve the transfer, unless the transfer is consistent with the objective of conserving, to the maximum extent possible, the expenditure of state funds and not federal funds. The director of the office of financial management shall notify the appropriate transportation committees of the legislature prior to approving any allotment modifications or transfers under this section.

NEW SECTION. **Sec. 702.** If any provision of this act or its application to any person or circumstance is held invalid, the remainder of the act or the application of the provision to other persons or circumstances is not affected.

NEW SECTION. **Sec. 703.** This act is necessary for the immediate preservation of the public peace, health, or safety, or support of the state government and its existing public institutions, and takes effect immediately.
