

RCW 48.150.050 Acceptance or discontinuation of patients—

Third-party payments. (1) Direct practices may not decline to accept new direct patients or discontinue care to existing patients solely because of the patient's health status. A direct practice may decline to accept a patient if the practice has reached its maximum capacity, or if the patient's medical condition is such that the provider is unable to provide the appropriate level and type of health care services in the direct practice. So long as the direct practice provides the patient notice and opportunity to obtain care from another physician, the direct practice may discontinue care for direct patients if: (a) The patient fails to pay the direct fee under the terms required by the direct agreement; (b) the patient has performed an act that constitutes fraud; (c) the patient repeatedly fails to comply with the recommended treatment plan; (d) the patient is abusive and presents an emotional or physical danger to the staff or other patients of the direct practice; or (e) the direct practice discontinues operation as a direct practice.

(2) Subject to the restrictions established in this chapter, direct practices may accept payment of direct fees directly or indirectly from third parties. A direct practice may accept a direct fee paid by an employer on behalf of an employee who is a direct patient. However, a direct practice shall not enter into a contract with an employer relating to direct practice agreements between the direct practice and employees of that employer, other than to establish the timing and method of the payment of the direct fee by the employer.
