

RCW 77.100.010 Legislative findings—Department to administer cooperative enhancement program. The fish and wildlife resources of the state benefit by the contribution of volunteer recreational and commercial fishing organizations, schools, and other volunteer groups in cooperative projects under agreement with the department. These projects provide educational opportunities, improve the communication between the natural resources agencies and the public, and increase the fish and game resources of the state. In an effort to increase these benefits and realize the full potential of cooperative projects, the department shall administer a cooperative fish and wildlife enhancement program and enter agreements with volunteer groups relating to the operation of cooperative projects.
