

WAC 16-250-014 Label information. Commercial feed, other than customer-formula feed, shall be labeled with the information prescribed in this section.

(1) Product name and brand name, if any.

(a) The brand or product name must be appropriate for the intended use of the feed and must not be misleading. If the name indicates the feed is made for a specific use, the character of the feed must conform therewith. A commercial feed for a particular animal class, must be suitable for that purpose.

(b) Commercial, registered brand or trade names are not permitted in guarantees or ingredient listings and may only be used in the product name of feeds produced by or for the firm holding the rights to such a name.

(c) The name of a commercial feed shall not be derived from one or more ingredients of a mixture to the exclusion of other ingredients and shall not be one representing any components of a mixture unless all components are included in the name: Provided, that if any ingredient or combination of ingredients is intended to impart a distinctive characteristic to the product which is of significance to the purchaser, the name of that ingredient or combination of ingredients may be used as a part of the brand name or product name if the ingredients or combination of ingredients is quantitatively guaranteed in the guaranteed analysis, and the brand or product name is not otherwise false or misleading.

(d) The word "protein" shall not be permitted in the product name of a feed that contains added nonprotein nitrogen.

(e) When the name carries a percentage value, it shall be understood to signify protein and/or equivalent protein content only, even though it may not explicitly modify the percentage with the word "protein": Provided, that other percentage values may be permitted if they are followed by the proper description and conform to good labeling practice. Digital numbers shall not be used in such a manner as to be misleading or confusing to the customer.

(f) Single ingredient feeds shall have a product name in accordance with the designated definition of feed ingredients as recognized by the Association of American Feed Control Officials unless the department designates otherwise.

(g) The word "vitamin," or a contraction thereof, or any word suggesting vitamin can be used only in the name of a feed which is represented to be a vitamin supplement, and which is labeled with the minimum content of each vitamin declared, as specified in WAC 16-250-036(3).

(h) The term "mineralized" shall not be used in the name of a feed except for "TRACE MINERALIZED SALT." When so used, the product must contain significant amounts of trace minerals which are recognized as essential for animal nutrition.

(i) The term "meat" and "meat by-products" shall be qualified to designate the animal from which the meat and meat by-products is derived unless the meat and meat by-products are made from cattle, swine, sheep and/or goats.

(j) If the commercial feed consists of raw milk, the words, "Raw (blank) Milk" shall appear conspicuously on the principal display panel. (Blank is to be completed by using the species of animal from which the raw milk is collected.)

(2) Commercial feed must be considered a distinct brand if it differs in guaranteed analysis, trademark name, or any other charac-

teristic method of marking. However, this requirement does not prevent a brand from being distributed in various physical forms.

(3) If the brand name contains either a percentage value that signifies crude protein or the word "protein," then the feed must contain no more than one and one-quarter percent nonprotein nitrogen.

(4) If a drug is used, the following shall appear on the label:

(a) The word "medicated" directly following and below the product name in a type size no smaller than one-half the type size of the product name.

(b) Purpose statement as required in subsection (5) of this section.

(c) The purpose of medication (claim statement).

(d) An active ingredient statement listing the active drug ingredients by their established name and the amounts in accordance with WAC 16-250-036(4).

(5) Purpose statement:

(a) The purpose statement shall contain the specific species and animal class(es) for which the feed is intended as defined in subsection (6) of this section.

(b) The manufacturer shall have flexibility in describing in more specific and common language the defined animal class, species and purpose while being consistent with the category of animal class defined in subsection (6) of this section which may include, but is not limited to, weight range(s), sex, or ages of the animal(s) for which the feed is manufactured.

(c) The purpose statement may be excluded from the label if the product name includes a description of the species and animal class(es) for which the product is intended.

(d) The purpose statement of a premix for the manufacture of feed may exclude the animal class and species and state "For Further Manufacture of Feed" if the nutrients contained in the premix are guaranteed and sufficient for formulation into various animal species feeds and premix specifications are provided by the end user of the premix. This section is applicable to commercial feeds regulated under subsection (6)(k) of this section.

(e) The purpose statement of a single purpose ingredient blend, such as a blend of animal protein products, milk products, fat products, roughage products or molasses products may exclude the animal class and species and state "For Further Manufacture of Feed" if the label guarantees of the nutrients contained in the single purpose nutrient blend are sufficient to provide for formulation into various animal species feeds. This section is applicable to commercial feeds regulated under subsection (6)(k) of this section.

(f) The purpose statement of a product shall include a statement of enzyme functionality if enzymatic activity is represented in any manner.

(g) The statement of purpose for single ingredient feeds shall be stated as "Single Ingredient Feed" or "Feed Ingredient." The manufacturer of a single ingredient feed or feed ingredient shall have flexibility in describing in more specific and common language the intended use of the feed ingredient dependent on species and class.

(6) Guarantees - Crude protein, equivalent crude protein from nonprotein nitrogen, amino acids, crude fat, crude fiber, acid detergent fiber, neutral detergent fiber, calcium, phosphorus, salt and sodium shall be the sequence of nutritional guarantees when such guarantee is stated. Other required and voluntary guarantees should follow in a general format such that the units of measure used to express

guarantees (percentage, parts per million, International Units, etc.) are listed in a sequence that provides a consistent grouping of the units of measure. Individual nutrient guarantees are not required if listed as exempt in (1) of this subsection.

(a) Required guarantees for swine formula feeds.

(i) Animal classes:

Swine	
Class	Approximate Size
Prestarter	2 to 11 pounds
Starter	11 to 44 pounds
Grower	44 to 110 pounds
Finisher	110 pounds to market weight
Gilts, sows and adult boars	None specified
Lactating gilts and sows	None specified

(ii) Guaranteed analysis for swine complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Swine Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of lysine; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum selenium in parts per million (ppm).

(b) Required guarantees for formula poultry feeds (broilers, layers and turkeys).

(i) Animal classes:

Layers (chickens that are grown to produce eggs for food, e.g., table eggs)	
Classes	Approximate Age
Starting/growing	From day of hatch to approximately 10 weeks of age.
Finisher	From approximately 10 weeks of age to time first egg is produced. (Approximately 20 weeks of age).
Laying	From time first egg is laid throughout the time of egg production.
Breeders (chickens that produce fertile eggs for hatch replacement layers to produce eggs for food, table eggs)	From time first egg is laid throughout their productive cycle.

Broilers (chickens that are grown for human food)	
Classes	Approximate Age
Starting/growing	From day of hatch to approximately 5 weeks of age.
Finisher	From approximately 5 weeks of age to market, (42 to 52 days).
Breeders (hybrid strains of chickens whose offspring are grown for human food - Broilers)	Any age and either sex.

Broiler, Breeders (chickens whose offspring are grown for human food)	
Classes	Approximate Age
Starting/growing	From day of hatch until approximately 10 weeks of age.
Finishing	From approximately 10 weeks of age to time first egg is produced, approximately 20 weeks of age.
Laying (fertile egg producing chickens - Broilers/roasters)	From day of first egg throughout the time fertile eggs are produced.

Turkeys		
Classes	Purpose	Approximate Age
Starting/growing	Turkeys that are grown for human food.	Females - From day of hatch to approximately 13 weeks of age.
		Males - From day of hatch to approximately 16 weeks of age.
Finisher	Turkeys that are grown for human food.	Females - From approximately 13 weeks of age to approximately 17 weeks of age.
		Males - From 16 weeks of age to 20 weeks of age, (or desired market weight).
Laying	Female turkeys that are producing eggs.	From time first egg is produced, throughout the time they are producing eggs.
Breeder	Turkeys that are grown to produce fertile eggs.	Both sexes - From day of hatch to time first egg is produced (approximately 30 weeks of age).

(ii) Guaranteed analysis for poultry complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Poultry Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of lysine; • Minimum percentage of methionine; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

(c) Required guarantees for beef cattle formula feeds.
 (i) Animal classes:

Beef Cattle	
Classes	Production Stage
Calves	Birth to weaning.
Cattle on pasture	May be specific as to production stage; e.g., stocker, feeder, replacement heifers, brood cows, bulls, etc.
Feedlot cattle	Not specified.

(ii) Guaranteed analysis for beef complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Beef Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Maximum percentage of equivalent crude protein from nonprotein nitrogen (NPN) when added; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum percentage of potassium; • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(iii) Guaranteed analysis for beef mineral feeds must include the following nutrients (if added) on the label in the order listed below (all animal classes):

Beef Mineral Feeds
Nutrients
<ul style="list-style-type: none"> • Minimum and maximum percentage calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt; • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum percentage of magnesium; • Minimum percentage of potassium; • Minimum copper in parts per million (ppm); • Minimum selenium in parts per million (ppm); • Minimum zinc in parts per million (ppm); • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound.

(d) Required guarantees for dairy formula feeds.

(i) Animal classes:

Dairy
Classes
Veal milk replacer
Herd milk replacer
Starter
Nonlactating dairy cattle: Replacement dairy heifers, dairy bulls and dairy calves
Lactating dairy cows
Dry dairy cows

(ii) Guaranteed analysis for veal and herd replacement milk replacer must include the following nutrients on the label in the order listed below:

Veal and Herd Replacement Milk Replacer
Nutrients
<ul style="list-style-type: none"> • Minimum percentage crude protein; • Minimum percentage crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage calcium; • Minimum percentage of phosphorus; • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(iii) Guaranteed analysis for dairy cattle complete feeds and supplements must include the following nutrients on the label in the order listed below:

Dairy Cattle Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Maximum percentage of equivalent crude protein from nonprotein nitrogen (NPN) when added; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Maximum percentage of acid detergent fiber (ADF); • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum selenium in parts per million (ppm); • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(iv) Guaranteed analysis for dairy mixing and pasture mineral feeds must include the following nutrients (if added) on the label in the order listed below:

Dairy Mixing and Pasture Mineral Feeds
Nutrients
<ul style="list-style-type: none"> • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt; • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum percentage of magnesium; • Minimum percentage of potassium; • Minimum selenium in parts per million (ppm); • Minimum vitamin A, other than the precursors of vitamin A, in International Units per pound.

(e) Required guarantees for equine formula feeds.
 (i) Animal classes:

Equine
Classes
Growing
Broodmare
Maintenance
Performance (including stallions)

(ii) Guaranteed analysis for equine complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Equine Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Maximum percentage of acid detergent fiber (ADF); • Maximum percentage of neutral detergent fiber (NDF); • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum copper in parts per million (ppm) (if added); • Minimum selenium in parts per million (ppm); • Minimum zinc in parts per million (ppm); • Minimum vitamin A, other than the precursors of vitamin A, in International Units per pound (if added).

(iii) Guaranteed analysis for equine mineral feeds (all animal classes) must include the following nutrients on the label in the order listed below:

Equine Mineral Feeds
Nutrients
<ul style="list-style-type: none"> • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of sodium; • Minimum copper in parts per million (ppm) (if added); • Minimum selenium in parts per million (ppm); • Minimum zinc in parts per million (ppm); • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(f) Required guarantees for goat formula feeds.

(i) Animal classes:

Goats
Classes
Starter
Grower
Finisher
Breeder
Lactating

(ii) Guaranteed analysis for goat complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Goat Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none">• Minimum percentage of crude protein;• Maximum percentage of equivalent crude protein from nonprotein nitrogen (NPN) when added;• Minimum percentage of crude fat;• Maximum percentage of crude fiber;• Maximum percentage of acid detergent fiber;• Minimum and maximum percentage of calcium;• Minimum percentage of phosphorus;• Minimum and maximum percentage of salt (if added);• Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee;• Minimum and maximum copper in parts per million (ppm) (if added);• Minimum selenium in parts per million (ppm);• Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(g) Required guarantees for sheep formula feeds.

(i) Animal classes:

Sheep
Classes
Starter
Grower
Finisher
Breeder
Lactating

(ii) Guaranteed analysis for sheep complete feeds and supplements (all animal classes) must include the following nutrients on the label in the order listed below:

Sheep Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Maximum percentage of equivalent crude protein from nonprotein nitrogen (NPN) when added; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum and maximum copper in parts per million (ppm) (if added, or if total copper exceeds 20 ppm); • Minimum selenium in parts per million (ppm); • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

- (h) Required guarantees for duck and geese formula feeds.
 (i) Animal classes:

Ducks	
Classes	Approximate Age
Starter	0 to 3 weeks of age
Grower	3 to 6 weeks of age
Finisher	6 weeks to market
Breeder Developer	8 to 19 weeks of age
Breeder	22 weeks to end of lay

Geese	
Classes	Approximate Age
Starter	0 to 4 weeks of age
Grower	4 to 8 weeks of age
Finisher	8 weeks to market
Breeder Developer	10 to 22 weeks of age
Breeder	22 weeks to end of lay

(ii) Guaranteed analysis for duck and geese complete feeds and supplements (for all animal classes) must include the following nutrients on the label in the order listed below:

Duck and Geese Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee.

(i) Required guarantees for fish complete feeds and supplements must include the following nutrients on the label in the order listed below must include the following nutrients on the label in the order listed below:

Animal species shall be declared in lieu of animal class:

Fish
Species
Trout
Catfish
Species other than trout or catfish
Fish Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minimum percentage of phosphorus.

(j) Required guarantees for rabbit complete feeds and supplements.

(i) Animal classes:

Rabbits	
Classes	Approximate Age
Grower	4 to 12 weeks of age
Breeder	12 weeks of age and over

(ii) Guaranteed analysis for rabbit complete feeds and supplements must include the following nutrients on the label in the order listed below:

Rabbit Complete Feeds and Supplements
Nutrients
<ul style="list-style-type: none"> • Minimum percentage of crude protein; • Minimum percentage of crude fat; • Minimum and maximum percentage of crude fiber (the maximum crude fiber shall not exceed the minimum by more than 5.0 units); • Minimum and maximum percentage of calcium; • Minimum percentage of phosphorus; • Minimum and maximum percentage of salt (if added); • Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; • Minimum vitamin A, other than precursors of vitamin A, in International Units per pound (if added).

(k) The required guarantees of grain mixtures with or without molasses and feeds other than those described in (a) through (j) of this subsection shall include the following items, unless exempted in (l) of this subsection, in the order listed:

(i) Animal class(es) and species for which the product is intended.

(ii) Guaranteed analysis must include the following nutrients on the label in the order listed below:

Grain Mixtures
<p>Nutrients</p> <ul style="list-style-type: none"> • Minimum percentage crude protein; • Maximum or minimum percentage of equivalent crude protein from nonprotein nitrogen as required in WAC 16-250-036(5); • Minimum percentage of crude fat; • Maximum percentage of crude fiber; • Minerals in formula feeds, to include in the following order: <ul style="list-style-type: none"> - Minimum and maximum percentage of calcium; - Minimum percentage of phosphorus; - Minimum and maximum percentage of salt (if added); - Minimum and maximum percentage of total sodium shall be guaranteed only when total sodium exceeds that furnished by the maximum salt guarantee; - Other minerals. • Minerals in feed ingredients - As specified by the official definitions of the Association of American Feed Control Officials; • Vitamins in such terms as specified in WAC 16-250-036(3); • Total sugars as invert on dried molasses products or products being sold primarily for their sugar content; • Viable lactic acid producing microorganisms for use in silages in terms specified in WAC 16-250-036(7); • A commercial feed (e.g., vitamin/mineral premix, base mix, etc.) intended to provide a specialized nutritional source for use in the manufacture of other feeds, must state its intended purpose and guarantee those nutrients relevant to such stated purpose. Article II of AAFCO's "Criteria for Labeling Nutritional Indicators" is not applicable to the label guarantees for these specialized commercial feeds.

(l) Exemptions.

(i) A mineral guarantee for feed, excluding those feeds manufactured as complete feeds and for feed supplements intended to be mixed with grain to produce a complete feed for swine, poultry, fish, and veal and herd milk replacers, is not required when:

(A) The feed or feed ingredient is not intended or represented or does not serve as a principal source of that mineral to the animal; or

(B) The feed or feed ingredient is intended for nonfood producing animals and contains less than 6.5 percent total mineral.

(ii) Guarantees for vitamins are not required when the commercial feed is neither formulated for nor represented in any manner as a vitamin supplement.

(iii) Guarantees for crude protein, crude fat, and crude fiber are not required when the commercial feed is intended for purposes other than to furnish these substances or they are of minor significance relating to the primary purpose of the product, such as drug premixes, mineral or vitamin supplements, and molasses.

(iv) Guarantees for microorganisms are not required when the commercial feed is intended for a purpose other than to furnish these substances or they are of minor significance relating to the primary purpose of the product, and no specific label claims are made.

(v) The indication for animal class(es) and species is not required on single ingredient products if the ingredient is not intended, represented, or defined for a specific animal class(es) or species.

(7) Feed ingredients, collective terms for the grouping of feed ingredients, or appropriate statements as provided under the provisions of RCW 15.53.9016 (1)(c).

(a) The name of each ingredient as defined in the official publication of the Association of American Feed Control Officials, common or usual name, or one approved by the department.

(b) Collective terms for the grouping of feed ingredients as defined in the Official Definitions of Feed Ingredients published in the official publication of the Association of American Feed Control Officials in lieu of the individual ingredients; provided that:

(i) When a collective term for a group of ingredients is used on the label, individual ingredients within that group shall not be listed on the label.

(ii) The manufacturer shall provide the department, upon request, with a list of individual ingredients, within a defined group, that are or have been used at manufacturing facilities distributing in or into the state. These records must be available to the department for inspection and copying for at least two years after the last date of distribution of the commercial feed.

(8) Directions for use and precautionary statements or reference to their location if the detailed feeding directions and precautionary statements required by WAC 16-250-078 and 16-250-082 appear elsewhere on the label.

(9) Name and principal mailing address of the manufacturer or person responsible for distributing the feed. The principal mailing address shall include the street address, city, state, zip code; however, the street address may be omitted if it is shown in the current city directory or telephone directory.

(10) Quantity statement:

(a) Net quantity shall be declared in terms of weight, liquid measure or count, based on applicable requirements under Section 4 of the Fair Packaging and Labeling Act.

(b) Net quantity labeled in terms of weight shall be expressed both in pounds, with any remainder in terms, of ounces or common or decimal fractions of the pound, and in appropriate metric system units; or in the case of liquid measure, both in the largest whole unit (quarts, quarts and pints, or pints, as appropriate) with any remainder in terms of fluid ounces or common or decimal fractions of the pint or quart, and in appropriate metric system units.

(c) When the declaration of quantity of contents by count does not give adequate information as to the quantity of feed in the container, it shall be combined with such statement of weight, liquid measure, or size of the individual units as will provide such information.

(11) When screenings are added to unmixed by-product feed, the term "screenings" must appear on the label:

(a) In the same size of type as the brand name; and

(b) Either as part of or immediately below the brand name.

(12) License applicants and licensees must submit copies of their commercial feed labels and labeling to the department upon request for reasonable cause.

(13) When a commercial feed contains any ingredient or combination of ingredients for the purpose of imparting a distinct characteristic to the product that is significant to the purchaser, the name of that ingredient or combination of ingredients may be used as part of the brand name or product name if:

(a) The ingredient or combination of ingredients is present in sufficient quantity to impart a distinctive characteristic to the product or is present in amounts which have a material bearing upon the price of the product or upon acceptance of the product by the purchaser thereof; or

(b) It does not constitute a representation that the ingredient or combination of ingredients is present to the exclusion of other ingredients.

[Statutory Authority: RCW 15.53.9012, 15.53.9013, 15.53.9016, and chapter 34.05 RCW. WSR 18-21-191, § 16-250-014, filed 10/24/18, effective 11/24/18.]
