

**WAC 16-301-545 Crucifer seed lots that test positive for any regulated disease—Requirements.** (1) If a crucifer seed lot tests positive for any regulated disease, the infected seed lot may be treated with an approved treatment method.

(2) After treatment, the seed lot must be tested for the presence of regulated diseases using appropriate pathological testing methods.

(3) If the pathological testing yields negative test results, the seed lot will be considered in compliance with this chapter.

(4) It is a violation of this chapter to plant seed in the regulated areas that tests positive for any regulated disease subsequent to any approved treatment method.
