

WAC 173-446-565 Registration of ecology offset credits. Ecology will register an ecology offset credit by:

(1) Creating a unique ecology serial number and assigning it to the ecology offset credit; and

(2) Transferring the ecology offset credit to the holding account(s) of the listed offset project operator, authorized project designee, or another third party as requested by the offset project operator or authorized project designee to receive ecology offset credits, unless otherwise required by a forestry offset reversal under WAC 173-446-570.
