- WAC 197-11-355 Optional DNS process. (1) If a GMA county/city with an integrated project review process (RCW 36.70B.060) is lead agency for a proposal and has a reasonable basis for determining significant adverse environmental impacts are unlikely, it may use a single integrated comment period to obtain comments on the notice of application and the likely threshold determination for the proposal. If this process is used, a second comment period will typically not be required when the DNS is issued (refer to subsection (4) of this section).
- (2) If the lead agency uses the optional process specified in subsection (1) of this section, the lead agency shall:
- (a) State on the first page of the notice of application that it expects to issue a DNS for the proposal, and that:
 - (i) The optional DNS process is being used;
- (ii) This may be the only opportunity to comment on the environmental impacts of the proposal;
- (iii) The proposal may include mitigation measures under applicable codes, and the project review process may incorporate or require mitigation measures regardless of whether an EIS is prepared; and
- (iv) A copy of the subsequent threshold determination for the specific proposal may be obtained upon request (in addition, the lead agency may choose to maintain a general mailing list for threshold determination distribution).
- (b) List in the notice of application the conditions being considered to mitigate environmental impacts, if a mitigated DNS is expected;
- (c) Comply with the requirements for a notice of application and public notice in RCW 36.70B.110; and
- (d) Send the notice of application and environmental checklist to:
- (i) Agencies with jurisdiction, the department of ecology, affected tribes, and each local agency or political subdivision whose public services would be changed as a result of implementation of the proposal; and
- (ii) Anyone requesting a copy of the environmental checklist for the specific proposal (in addition, the lead agency may choose to maintain a general mailing list for checklist distribution).
- (3) If the lead agency indicates on the notice of application that a DNS is likely, an agency with jurisdiction may assume lead agency status during the comment period on the notice of application (WAC 197-11-948).
- (4) The responsible official shall consider timely comments on the notice of application and either:
- (a) Issue a DNS or mitigated DNS with no comment period using the procedures in subsection (5) of this section;
- (b) Issue a DNS or mitigated DNS with a comment period using the procedures in subsection (5) of this section, if the lead agency determines a comment period is necessary;
 - (c) Issue a DS; or
- (d) Require additional information or studies prior to making a threshold determination.
- (5) If a DNS or mitigated DNS is issued under subsection (4)(a) of this section, the lead agency shall send a copy of the DNS or mitigated DNS to the department of ecology, agencies with jurisdiction, those who commented, and anyone requesting a copy. A copy of the environmental checklist need not be recirculated.
