

WAC 230-11-045 Draw winning tickets randomly. A "drawing" means a random selection process for determining winners in a raffle. To be random, each ticket in the drawing must have an equal and fair chance of being drawn as a winner. Organizations must design the ticket drawing receptacle so that each ticket has an equal opportunity to be drawn.

[Statutory Authority: RCW 9.46.070. WSR 06-20-040 (Order 602), § 230-11-045, filed 9/26/06, effective 1/1/08.]
