- WAC 246-272B-06900 Holding tank sewage systems. (1) An owner shall not install or use a holding tank sewage system for any new residential development or expansion of residential development, except as set forth in this section.
- (2) The department may approve installation of holding tank sewage systems only for:
- (a) Permanent uses limited to controlled, part-time, commercial usage, such as recreational vehicle parks and trailer dump stations;
- (b) Short term use in case of an emergency situation as allowed in WAC $246-272B-07450\,(4)$; or
 - (c) Repairs as allowed in WAC 246-272B-07400(11).
 - (3) An owner proposing to use a holding tank sewage system shall:
- (a) Hire a design engineer who follows good engineering practice and prepares a design consistent with the department's recommended standards and guidance on holding tank sewage systems;
- (b) Submit and receive department approval of an O&M manual that meets the requirements of WAC 246-272B-04200; and
- (c) Use a holding tank registered by the department according to chapter 246-272C, On-site sewage system tanks, and tested for water tightness under WAC 246-272B-05200.
