

WAC 246-272B-07300 Sewage tank management. (1) The owner, management entity, or operator shall create and follow a routine schedule as required in WAC 246-272B-04200(5) for:

- (a) Sewage tank inspection for septage, grease, and scum; and
- (b) Sewage tank pumping.

(2) When removing septage, grease, scum, or sewage from a LOSS, the owner shall: Employ only persons approved by the local health jurisdiction to pump and transport septage, grease, scum, or sewage and that:

(a) Transport septage, grease, scum, or sewage only in vehicles clearly identified with the name of the business;

(b) Record and report septage removal to the owner as required by the approved O&M manual and the LOSS operating permit; and

(c) Dispose of septage, grease, scum, or sewage, or apply septage biosolids to land consistent with local health jurisdiction regulations and chapter 173-308 WAC, Biosolids management.

[Statutory Authority: RCW 70.118B.020. WSR 11-12-035, § 246-272B-07300, filed 5/25/11, effective 7/1/11.]
