- WAC 246-291-005 Applicability. (1) The rules of this chapter apply to a Group B public water system that provides drinking water to fewer than fifteen service connections and:
 - (a) Fewer than twenty-five people per day; or
- (b) Twenty-five or more people per day for fewer than sixty days per year, provided the system does not serve one thousand or more people for two or more consecutive days.
- (2) The rules of this chapter do not apply to a Group B system that:
- (a) Consists only of distribution or storage facilities and does not have any source or treatment facilities;
- (b) Obtains all water from, but is not owned by, a public water system where the rules of this chapter or chapter 246-290 WAC apply; and
 - (c) Does not sell water directly to any person.
- (3) The rules of this chapter do not apply to a Group B system that provides water to one or two service connections, except:
- (a) In a county in which a local board of health has adopted requirements for Group B systems with one or two service connections; or
- (b) When the department determines that it is necessary to protect public health and safety, such as if the system serves a connection with a use listed under WAC 246-291-010 (62)(a) through (h).
- (4) A proposed Group B system shall meet planning, engineering, and design requirements under WAC 246-290-100 through 246-290-250 if:
- (a) The design submitted under WAC 246-291-120 proposes to supply water to another public water system and the combined number of service connections or total population served meets the definition of a Group A public water system; or
- (b) The proposed system is being designed to serve ten to four-teen residential service connections using average household population standards as required under WAC 246-291-200(2).
