

WAC 246-831-090 Health, sanitation, and facility standards. All schools, programs, and apprenticeship programs must have adequate facilities and equipment available for students learning reflexology. All facility equipment must be maintained in accordance with local rules and ordinances in addition to those imposed by this chapter. Instructional and practice equipment must be similar to that found in common occupational practice. Programs must make available an adequate reference library appropriate to the subjects being taught. Reference materials may be in electronic format.

[Statutory Authority: 2012 c 137. WSR 13-12-044, § 246-831-090, filed 5/31/13, effective 7/1/13.]
