

WAC 463-85-005 Work in unison. The requirements of this chapter are based upon chapter 80.80 RCW and are separate and distinct from the requirements found in chapter 463-80 WAC carbon dioxide mitigation that are based upon chapter 80.70 RCW. These two requirements are required to work in unison with each other in a serial manner. The first requirement is the emissions performance standard under this chapter. Once that standard is met, the requirements of chapters 80.70 RCW and 463-80 WAC are applied.

[Statutory Authority: Chapters 80.70 and 80.80 RCW and RCW 80.50.040. WSR 08-14-064, § 463-85-005, filed 6/25/08, effective 7/26/08.]
