Purpose of the Proposal and Its Anticipated Effects, Including Any Changes in Existing Rules: This rule making has the following effects: To require a general government employer to grant leave with pay (LWP) to allow an employee to take a reasonable amount of LWP for an employee to travel and receive each dose of COVID-19 immunization if the vaccine is not offered at the workplace; to allow a general government employer to grant a reasonable amount of LWP for an employee to receive each dose of COVID-19 immunization if the vaccine is offered at the workplace; and to allow a higher education employer to grant a reasonable amount of LWP for an employee to receive each dose of COVID-19 immunization if the vaccine is not offered at the workplace.

An employer may authorize leave in excess of one day in extraordinary circumstances, such as to accommodate travel when the vaccine is unavailable locally. The employer may require that the request for leave be supported by documentation, which may include proof of the vaccination. If state or federal law provides paid leave specifically to receive the COVID-19 vaccination, the provisions concerning leave for immunization no longer apply. The proposed rules also allow an employer to grant leave without pay for an employee to protect themselves, or a relative or household member, from risks related to COVID-19.

Reasons Supporting Proposal: To align Title 357 WAC with Governor Jay Inslee's issued proclamation 20-05 which declares state of emergency in all counties in the state of Washington as a result of the outbreak of COVID-19. Our governor further declared that state agencies and departments are directed to use state resources and to do everything reasonably possible to assist affected political subdivisions in an effort to respond to and recover from the COVID-19 outbreak. The worldwide outbreak of COVID-19 and the effects of its extreme risk of person-to-person transmission throughout the United States and Washington state significantly impacts the life and health of our people, as well as the economy of Washington state, and is a public disaster that affects life, health, property or the public peace.

(1) To allow an employee to receive assessment from the employee assistance program.

(2) When an employee is scheduled to take an examination or participate in an interview for a position with a state employer during scheduled work hours.

(a) Employers may limit the number of occurrences or the total amount of paid leave that will be granted to an employee to participate in an interview or take an examination during scheduled work hours.

(b) Employers may deny an employee's request to participate in an interview or take an examination during scheduled work hours based upon operational necessity.

(3) When an employee is required to appear during working hours for a physical examination to determine physical fitness for military service.

(4) To allow a general government employee to take paid leave, not to exceed thirty days in a two-year period to participate in life-giving procedures, such as medical procedures, including testing, sampling, or donation of organs, tissues, and other body components for the purpose of donation, without compensation. For this subsection blood or plasma donations are not considered life-giving procedures.

(a) General government employers may take operational necessity into account and require the employee to provide reasonable advance notice.

(b) Employees must provide written proof from an accredited medical institution, physician, or other medical professional that the employee will or has participated in a life-giving procedure.

(5) When a general government employee is required by Centers for Disease Control and Prevention guidelines to self-quarantine due to novel coronavirus disease 2019 (COVID-19), but is otherwise healthy and has not tested positive for COVID-19, and the employer has determined the employee does not have the option to telework. An employer may subsequently determine that a telework option exists for the employee and direct the employee to telework. If the employee is directed to telework under this subsection and declines to do so, the employee must use other available leave options. The employee may receive up to fourteen days of leave with pay under this subsection. This subsection is effective until the expiration of proclamation 20-05, issued February 29, 2020, by the governor and declaring an emergency in the state of Washington, or any amendment thereto, whichever is later. An employer may require written verification, including verification submitted electronically, confirming the circumstances warranting the self-quarantine or inability to telework, which may include a signed affidavit from the employee or any other information requested by the employer.

(6) To allow a general government employee to take a reasonable amount of leave with pay for the employee to travel and receive each dose of COVID-19 immunization if the vaccine is not offered at the workplace. An employer may authorize leave in excess of one day in extraordinary circumstances, such as to accommodate travel where the vaccine is unavailable locally. The employer may require that the request for leave be supported by documentation, which may include proof of the vaccination. This subsection is effective until the expiration of proclamation 20-05, issued February 29, 2020, by the governor and declaring an emergency in the state of Washington, or any amendment thereto, whichever is later. This subsection no longer applies if state or federal law otherwise provides paid leave specifically for employees to receive the COVID-19 immunization.
